## Rice Drove Car That Hit Boy, He Told Police

### Twelve Year Old Son Was Sitting in Driver's Seat But His Hand Was On Wheel When Car Killed Van Wagenen Boy on Hurley Avenue, According to His Statements to Police.

The inquest before Coroner Conner to inquire into the death of Frederick Van Wagenen, aged four years, who was killed last Saturday on Hurley avenue when he was hit by an automobile of Maurice H. Rice of this city, was held Wednesday afternoon at the supervisors' rooms in the court house. District Attorney Traver and Attorney Francis C. Merritt examined the several witnesses sworn and a great deal of the testimony was in regard to measurements and a description of the surrounding land. Lou Merritt of the Pennington studio identified photographs taken the same evening the accident happened the location of boy's body, the car and other details as they were pointed out to him, also the tracks of a machine which ran from the concrete roadway to the curb, up over the walk and through a field and on into Snyder avenue.

At the conclusion of the testimony, an adjournment was taken until next Thursday afternoon at two o'clock. At that time additional witnesses will be sworn.

#### Doctor Describes Injuries.

The first witness called was Dr. Frank Johnston who with Dr. Norwood viewed the body and made an autopsy at the funeral parlors of W. N. Conner. Dr. Johnston described the injuries as found on the autopsy. There were lacerations of the face on the left side below the eye, contusions behind the right ear, large abrasions on the right leg. An internal examination showed a large depressed fracture of the skull on the right side over the ear, and two extended fractures of the base of the skull extending from the base of the skull to the right side of the head. The left lung was ruptured and full of blood. The left kidney and spleen were also ruptured and there was a considerable amount of blood in the abdominal cavity.

In reply to a question as to which side of the body in his opinion the blow had been struck to give the injuries named, Dr. Johnston said that in his opinion it had been the right side.

He said the child was about four years old, well nourished and a healthy, normal child. His opinion was that the cause of death was the fractures of the skull which had been mentioned together with the abdominal injuries and shock.

The blow, he believed, which had caused the fractures had been struck on the right side of the head above the ear. Dr. Norwood testified to practically the same facts and stated that he believed from his examination that the blow had been struck on the right side of the body.

#### Maps And Distances.

County Superintendent of Highways James F. Loughran identified maps and drawings which he had made the day following the accident showing the location of the accident and also indicating the points which were pointed out to him as the place where the body was, the spot of blood, the course of the car as it left the roadway and other details including the fence post which was torn out by the car.

Mr. Loughran said that at the request of the coroner he had gone to the spot on April 19, the day following the accident, and made measurements from which he made maps.

The spot where the car left the concrete was indicated as a point on the pavement where a railroad spike had been driven in. From this point, where the car left the pavement, there was a point opposite the path which runs to the east of the last house and where the boy was supposed to be passing on the dirt, the distance is 18.4 feet. From this point on the path to the opposite where the blood stains were found is a distance of 12 feet. From the blood spot to where the left wheel of the car took to the curb is 21.4 feet and from there up the grade across the vacant lot past the apartment house post and out on Snyder avenue to a point which was indicated as the spot where the car stopped is 82 feet.

**Path of The Car.**  
The total distance from where the car left the concrete to a point indicated as where the car stopped is 122.8 feet.

Mr. Loughran described the character of the ground as smooth to the property line. The sidewalk is of dirt, as is the shoulder of the road. The concrete at that point is 16 feet wide. The shoulder is 8.5 feet wide between the concrete and the curb line. The blood spot on the ground was about 5 1/2 feet from the concrete and outside the beaten path usually used. The point indicated to him as where the car stopped was about 14 or 15 feet in Snyder avenue from the junction of Hurley avenue. The car had passed inside a pole at the corner some 20 feet and the hole of the fence post would be in the path of the car as its path was defined.

## Two Guilty in County Court

### Both Charged With Operating Automobile While Intoxicated—One Pleads Guilty After Jury Is Impaneled—Jury Verdict Against Other.

County court reconvened at the court house at 10:30 o'clock this morning. After the opening of court William D. Brunier, Jr., of Brunier & Canfield, attorneys for Pardee Jocelyn, withdrew the defendant's plea of not guilty of running an automobile while in an intoxicated condition and Jocelyn pleaded guilty. Judge Fowler imposed the usual fine of \$200, with \$100 additional to reimburse the county for expense incurred, in lieu of payment of the \$300 the defendant to serve 30 days in jail. A jury was impaneled Wednesday afternoon to try this case.

In the case of Albert Pross who was found guilty Wednesday of operating a car while intoxicated and who was to receive sentence this morning, a postponement was taken until Tuesday when sentence will be imposed when court convenes. Court adjourned until that time.

After the opening of county court Wednesday afternoon, District Attorney Traver called the case of The People against John W. Elmore, who is under indictment for forgery in the second degree. Elmore was a seller of Cuban American Sugar stock, making his home in Highland, and is accused of having issued bad checks. He failed to respond when his name was called in court and District Attorney Traver asked Judge Fowler for an order that the bail bond in \$5,000 be forfeited and a bench warrant for the arrest of Elmore be issued. The court so ordered. Elmore's whereabouts are unknown to his wife and to his attorney, Frank W. Brooks.

No. 9 on the criminal calendar. The People against Bernard Schwartz, was announced as being put over the term.

No. 10, The People against Harry Bruck, was set down for trial on Tuesday next.

The trial of William F. Mead, indicted for violation of the Sullivan law in having a revolver in his possession, was set down for Thursday, at 2 p. m.

Hurley avenue. It was about 4:45 o'clock. He got in communication with Officer Burger and Sergeant Phinney. Burger went to the scene. Officer Martin was sent to the hospital. Later Maurice H. Rice came to the city hall and reported the accident. He said the boy was dead.

In reply to questions put by Chief Wood the chief said Mr. Rice had told him that the child was playing in the street and ran in front of his car and had been injured. After the chief had made out his report Mr. Rice started to make out a form which is required by the state where an accident had taken place.

**Information Given by Rice.**  
Information given by Mr. Rice for the chief's report, he said, was as follows:

The car was a Hudson coupe. License number 4H6963. The car belonged to Maurice H. Rice. He had an operator's license. Was 50 years old and had had six years' driving experience. He gave the person's name who was injured as Van Wagenen and that he had been killed. He said he had taken him to the Kingston City Hospital after the accident. In the car were Margaret Rice, John Rice, 12 years old, Delores Rice and himself. He said he was driving properly and that the car was in good working order, the road dry, level, that it was daylight and it was clear. The person injured, he said, had been playing in the street.

After he made out his report from information given by Mr. Rice the chief said Mr. Rice started to make out the second report himself which went to Albany. While Mr. Rice was engaged in making out this report Officer Burger and Sergeant Phinney came in with F. C. Merritt and Coroner Conner also came in. When the officers and officials came in, Mr. Rice had his blank about half made out. He had answered the questions in regard to the license, name, address, etc., and had also answered the question which is to the effect as to whether the driver of the car was the owner, friend, employee, etc., and this question had been answered by Mr. Rice that the operator was the owner at the time of the accident.

**Rice Said He Was Driving.**  
Sergeant Phinney made a report. The coroner, chief and sergeant went into the private office and there they had a conversation in which Mr. Rice said he was operating the car. He said the boy was under the wheel at the time but that he, Mr. Rice, had his hand on the wheel and was operating the car. He said he grabbed the wheel but the boy was in the driver's seat. It was his son, John, 12 years old. He said the reason the boy was under the wheel was because he wanted to drive and he had let him take the driver's seat for a while. He put the rate of speed the car was travelling at as 20 miles an hour at the point of the accident.

**Found Broken Working.**  
Asked if he knew why he ran off the road, he said he did not, "had after they hit the child become excited and they turned up Snyder avenue. The car was in good condition. The car had two wheel brakes and the chief said that he had examined them and found them working after the accident."

**Travelling Boy To Drive.**  
Sergeant Phinney testified that he and Officer Burger were out on a patrol when they saw the accident.

## Trolley Company Files Petition With Commission

### Kingston Consolidated Railroad Company Seeks Permission of Public Service Commission to Abandon Tracks on Colonial Line.

By Telegram to The Freeman.  
Albany, April 23.—The Kingston Consolidated Railroad Company today petitioned the Public Service Commission for permission to abandon all of the route of the former Colonial City Traction Company except that portion along the Strand to Kingston Point. The track sought to be abandoned, according to the petition, is that part of Hasbrouck avenue, Prince street, Dedrick street, Thomas street, Cedar street, Clinton avenue, Main street, Wall street, North Front street and Washington avenue. The route of the former Kingston City Railroad Company, which was merged with the Colonial company in 1901, will be operated as it is without any change, if the petition is approved.

The petition claims that for nearly the entire distance the lines of the Colonial company and the former Kingston City company are so near together that the lines of the Kingston City company are equally convenient for most travellers. It is proposed, however, to establish bus routes, which will serve the territory now served by the Colonial lines and parts of the city not now served by either line. For this purpose the Kingston City Transportation Company has been organized and an application is pending before the Common Council for approval of such routes.

It is alleged in the petition that for many years the company's revenues have been insufficient to afford an adequate return on the value of its property; and that while the Kingston City company lines have annually returned large deficits. It is claimed that the deficit last year on these lines was \$45,835.36. Variations of fare have been tried without obtaining the desired relief, it was said. The fare is now eight cents.

## P. T. A. Council For Supervision

### Federated Council of Parent-Teacher Association Believes in Supervised Playgrounds in Kingston—Wants to Hear Playground Association Plans.

The April meeting of the Federated Council of Parent-Teacher Associations was held on Wednesday at the high school. Plans were made for the three Travel Picture Talks to be given by Dr. Putnam Cady on the dates of April 27, May 4, and May 11, further notice of which appears elsewhere.

The spring conference of the Poughkeepsie district to be held on Saturday, May 23, at Beacon, was discussed and it is expected that a large delegation from the Kingston P. T. A.'s will attend.

Miss Emma H. Howe of Auburn representing the Playground and Recreation Associations of America, addressed the council on the vital necessity for supervised playgrounds. She stated that Mrs. Frederick Hosmer, president of the New York State Congress of Mothers and Parent-Teacher Associations, is vitally interested in the playground movement, being herself director of the Municipal Playground Association of Auburn. The council passed a resolution favoring supervised playgrounds for Kingston and voted that a copy of said resolution be sent to Mayor Block and the Rev. R. A. Greenwell. It was also voted to invite Mr. Greenwell to tell the council at its May meeting something about his plans as head of the Playground Association of Kingston.

## Young Bride Will Stand by Husband

### By Telegram to The Freeman. Boston, April 23.—Little, Elsie Stetson wasn't at all ruffled today over the fact that her bridegroom, the "Rev." W. E. Stetson, formerly of Oswego, N. Y., was charged with being an impostor, posing as a minister, and had recently married her mother to Charles H. Wellington.

Said the twenty-year-old bride: "If you love a man well enough to marry him you want to love him well enough to stick by him when he is in trouble. I love my husband, and I am going to stand by him, no matter what happens."

The gray-haired distinguished Stetson is out on bail in connection with charges made against him. Testimony at a preliminary hearing showed that he had been unfrocked by the Northern New York Congregational Conference.

His mother wasn't so unorthodox about "Her" Stetson. She said: "Here I've been thinking I was married since March 21, and I wasn't married at all. Mr. Wellington and I will get married again right away. Heaven knows how many more 'marriages' Stetson has performed."

**Some Electric Activities.**  
The large trucks of the Kingston Supply Company are unloading another carload of electric material.

## Bogart Will Test City Ordinance

### County Attorney John W. Eckert, His Attorney, Expects to Appeal From City Court Ruling—Judge Jenkins' Opinion on Legality of Ordinance.

It is announced that County Attorney John W. Eckert, attorney for Elva H. Bogart, president of the Automobile Club of Ulster county, will take an appeal to the county court from the judgment of conviction against Mr. Bogart on the ground that the board of public works has not the power to enact parking ordinances.

Mr. Bogart was arrested for parking in a restricted area uptown and at the time of his trial the question of the legality of the ordinance was raised by Mr. Eckert. After considering the matter for a week City Judge Harry E. Schrick held that the board of public works had the power to enact the ordinance that had been attacked, and he found Mr. Bogart guilty and fined him \$3.

At the time of the trial Corporation Counsel James Jenkins filed the following memoranda with Judge Schrick upholding the power of the board of public works to draft and enact ordinances regulating traffic in Kingston. The memoranda was as follows:

The validity of the parking ordinance is attacked in this action. The consequences from a judgment declaring this ordinance invalid will be so serious that I, as Corporation Counsel of the City of Kingston, am filing a memorandum.

Shortly after I entered upon the duties of corporation counsel, I took this question up with my predecessor, Judge Gill and he gave his opinion that the Board of Public Works had authority to pass ordinances regulating traffic in the City of Kingston. Of the correctness of his opinion I have no doubt. Those questioning the power of the Board of Public Works in the premises have undoubtedly overlooked section 15 of the General Highway Traffic Law. This section provides that:

"The Common Council, Board of Aldermen, police commissioners or other body having charge of the streets, etc., may regulate parking zones, etc. by ordinance."

The statute creating the Board of Public Works Chapter 611 of the Laws of 1915 section 145, provides that "the Board of Public Works shall have control of the streets of the City of Kingston." Subdivision 23 of the same section, after enumerating the powers and duties of the Board of Public Works adds that it "shall have such other powers necessary to carry out the provisions of this title."

It therefore is disclosed that the Board of Public Works had plenary power to pass the ordinance in question.

A principle of statutory construction might be invoked here such as "in interpreting statutes the Courts will consider the interpretation given thereto by public authorities acting under the statute covering a period of years." Since 1915 the authorities of the City of Kingston and others concerned, have accepted the interpretation and construction of the laws empowering the Board of Public Works to pass the ordinance in question is contended for by the undersigned.

Respectfully submitted,  
JAMES JENKINS,  
Corporation Counsel.

## Yale Graduates Are Told to Behave

By Telegram to The Freeman.  
New Haven, Conn., April 23.—"Thoughtless graduates, bent on having an old-fashioned 'good time' when coming back for reunions, can undo the efforts of the whole year on the part of the university itself to make its undergraduates understand what it expects of them."

So runs an appeal made by the Yale Alumni Weekly. In warning graduates to behave themselves when they come here next June for the annual celebration that marks the end of the university's year.

The Weekly declares that "the Commencement liquor question should be settled without further individual opposition on the part of those reunionists (at the commencement exercises next June) who object to being told what to do about the Volstead act at home."

Yale Alumni Weekly is the official organ of the university administration. It has no liquor problem and that Yale undergraduates are living strictly up to all requirements of the law in regard to drink as well as in regard to other matters. The appeal is the first of the sort that has been noted as coming from so nearly an official source. About 2,500 graduates are expected to be listed at headquarters when the commencement season opens in mid-June, practically all being housed in university dormitories.

**Man Hit by Auto.**  
James Towrie of 155 Broadway reported to the police this morning that his Ford car had struck John Roosa at the corner of North Front street and Washington avenue, and that Roosa was uninjured.

**Has Pastoral Call.**  
The Rev. R. J. Van Dusen, pastor of the Katharine and West Camp churches, has received a call from the Lutheran Church of the Abenonath at Oswego, and has the call under consideration.

## New Aunt Mary Comes Forward

### Prolific Port Even Correspondence Produces "Another Aunt Mary," Who Apparently Does Not Understand What It Is All About.

Port Ewen, N. Y., April 23, 1925  
To the Editor of The Freeman:

Sir:  
I have been an interested onlooker endeavoring to ascertain what defense the "strong and important group" could advance, and what arguments anxious citizens could promulgate. It is plain that some of the "important group" has done something either unpleasant to some one or detrimental to the interest of the citizens; it has developed that the town board has in the opinion of "Anxious Citizen" violated some rule or been guilty of some blunder, refusing to acquiesce in the efforts of our citizens to curb traffic violations.

I have been alert in my scrutiny of the several communications expecting that some one of this "important group" would enlighten the residents as to why the traffic regulation was assigned to the scrapheap, but up to this date have failed to discover any explanation from the non of the "duly authorized member of this group." The papers say that this group consists of four members. Why not draft one of the other three if the "authorized member" cannot elucidate? Some one of them should be capable, and the citizens would welcome any information he might impart; for the benefit of the people, give us something intelligible. I have endeavored to glean from the communication in your issue of April 22nd some intelligence as to what this was all about, and from its composition and expression I must confess that it was far beyond the comprehension of any inhabitant.

The communication was so rambling in its nature, so incoherent in its composition that it was impossible for an ordinary creature to interpret it. Can it be possible that the aroma which was emanating from the Cadillac car interrogated by Officer Soper, or the Dodge car asked by the Federal officers has had an effect? Contiguity and inhalation sometimes produce just such results. In the name of decency, drop the pen and substitute the other three who have always had the reputation of being educated and possessing a moral and temperate nature.

The people do not care to have a veil thrown over this subject. They cannot be confounded by the reference to "Anxious Mother" or "Aunt Mary." Their attention must not be diverted from the real cause of opposition, and they do not care to listen to the "guffaw" emanating from a public official.

I was interested in that figure of speech "put up or shut up," but did not comprehend the application. Would it not apply to that writer at this time?

ANOTHER AUNT MARY.

## Woerner Charged With Car Theft

### Arrested On Charge of Breaking Into Garage and Taking Car Found Later Overturned in Ditch.

William Woerner was arraigned before Judge Harry E. Schrick in police court this morning charged with grand larceny in the first degree on the complaint of Mrs. Mamie Clare of No. 45 Murray street, who had placed him under arrest Wednesday night and turned him over to the police. Woerner asked for an adjournment which was granted and bail was fixed at \$2,500.

According to Mrs. Clare's story, Woerner broke into the garage and helped himself to her Nash coach and drove away with it. She notified the police who later found the automobile upset in a ditch on Albany avenue. The car was not badly damaged.

**Thirty Days For Mulholland.**  
William Mulholland, a stranger, was arrested Wednesday night by Officer Van Buren who charged him with public intoxication. Judge Schrick sentenced him to thirty days in the county jail.

## MILTON HOME BUREAU MEMBERS TO MEET

Milton members of the Ulster County Home Bureau are promised a good time at their meeting at the Milton Community House on Tuesday evening, April 28, beginning at 8:15 o'clock standard time.

John L. Gault, superintendent of schools for the second district, will explain what becomes of school money, how it is apportioned, etc., and Dwight M. Warren, head of the Milton schools, will speak briefly on matters pertaining to local conditions.

Before and after the talks there will be vocal and instrumental selections, and there will also be a community sing with old fashioned songs, such as "Dixie Bells," "Swing Nelly Home" and many others.

## TRINITY SICK AND AID SOCIETY NEW OFFICERS

Tuesday evening the Sick and Aid Society of Trinity Lutheran Church installed its new officers. The officers are: President, Philip Krueger; vice-president, Henry Eisinger; recording secretary, Fred Ewing; financial secretary, John Bortner; treasurer, Carl Will; trustees for three years, Fred Eisinger.

## Governor Vetoes Teachers' Salary Increase Bill

### Would Have Increased 30,000 Salaries in New York City By Over \$15,000,000—Omnibus Veto of 52 Bills—Action on Other Measures.

By Telegram to The Freeman.  
Albany, N. Y., April 23.—Governor Smith today vetoed the Rice bill which would have increased the salaries of the 30,000 school teachers in New York city by upwards of \$15,000,000.

The governor has now disposed of all of the 646 bills which the legislature passed during the last ten days of the session.

He vetoed 17 other measures which provided for increases in salaries and additional positions in the public school system, the courts and the county offices generally in Greater New York.

**Unable to Meet Expenditure.**  
Regarding the salary increase bills, the governor wrote in a memorandum:

"It would be idle to discuss the merits of these various bills. It is sufficient to say that the corporation counsel of the city of New York has publicly and in writing stated that the city of New York financially is in no position to meet the additional expenditure that these bills call for. There is also involved the whole question of the principle of home rule. Nearly all the salary increases, including those for the teaching and supervising staff, could now be made by the city itself through the board of estimate and apportionment, if and when the city is ready to do."

**Inconsistency of Request.**  
After pointing to the fact that approval of the salary bills would have made it necessary for New York city to raise many million dollars extra each year, the governor wrote:

"The question arises in my mind where is this money to come from. It can only come from the real estate owners and rent payers, and, strange to say, many of the individuals affected by this legislation urged me to sign these bills that they might be able to meet the increased cost of living, the principal item of which is the increase in rent, not having in mind that the operation of these bills would tend to further increase their rents."

Webb bill which would have removed some of the present restrictions in the use of motion picture films.

The omnibus veto contained 52 measures which the governor disapproved.

The governor signed the Nicoll bill authorizing the New York city transit commission to enter into contracts for advertising in the subways and for the sale of articles in the subway stations.

The Clayton bill relating to the computation of pensions to members of the teachers' retirement system in all cities was approved. Pensions will now be computed on the salaries earned in the last five years, instead of ten.

The Cole bill increasing the salaries of teachers in state normal schools was approved.

The governor is planning to take a good rest for the next few days.

## CURRENT OFFERINGS AT THE THEATERS

A large number of complimentary communications were received by Jimmie Connors at Keeney's this morning for his radio concert which was broadcast Wednesday night. This same band is broadcasting four times daily at Keeney's in conjunction to the regular photoplay program. The new picture for the last half of the week is Betty Compson in "New Lives for Old." The story is a stirring tale of Paris and America, with the plot woven around the darling of a young woman, a famous dancer, who sacrifices love and reputation for the sake of her country. Theodore Kosloff and Wallace MacDonald support Betty in her most delightful role.

Five all new acts of vaudeville featuring the International Four opens at the Kingston Opera House tonight. The photoplay on the same bill is William Desmond in "Ridin' Pretty."

Al Lemon with "The Record Breakers," consisting of 20 people in musical comedy is the offering at the Orpheum today, Friday and Saturday. The company is said to possess the funniest comedians and a chorus of pretty girls that can sing and dance. The picture today is James Oliver Curwood's, the novel of the great outdoors "The Hunted Woman," and a picture that will thrill you and keep you thrilled.

At the Auditorium tonight the feature picture is "The Woman on the Jury," featuring Frank Mayo and Sylvia Breamer.

## An Evening Fire.

About one o'clock this afternoon the awning in front of Goldman's Style Shop at 24 Broadway, caught fire and a small alarm to be sent to the fire department. The damage was slight. The fire is thought to have been caused by a lighted cigarette butt falling on the awning.

## Saunder's Home of April

The trustees of the Home of Aged Women in Saugerties has elected Benjamin Rowe as treasurer and Gillbert Flager as clerk as his assistant. Several thousand dollars have been subscribed to the endowment fund.

# Daddy's Evening Fairy Tale

## THE FARM'S SPRINGTIME

When everyone was fast asleep in the farm house and on the farm, Mistress Springtime waved her springtime over them all so that when they got up the next morning they all felt that spring was in the air.

"Neigh, neigh!" said the good old horse. "Spring is in the air. I feel it. I must be ready to plow the fields now."

"There is lots that must be done now that the spring has come and I really do feel its gentle influence in the air."

"Somehow it feels like spring today," said the farmer. "I must start my planting."

"I've got lots of ideas for my garden this year," said the farmer's wife. "You know it does feel just like spring today."

The children gathered little blossoms on their way to school and as the soft spring air came in the school windows they found it hard to think of anything else but the woods and flowers that might be out, and birds that might have arrived for the summer, and walks that would be so lovely, and games to be played outdoors now that it seemed so pleasant.

"Spring has come, grunt, grunt," said Grandfather Porky Pig. "I have a good spring appetite."

"So have I, squeal, squeal," said Master Pink Pig.

"I'd enjoy a good meal now," said Pasty Pig. "Really the spring is giving me an appetite."

"To like a bite myself," said Mrs. Pinky Pig.

"So would I," said Pinky Pig's mother.

"Spring certainly is in the air. I hadn't any appetite for quite a while and now I feel my old self again," said Miss Ham.

"Squeal, squeal, no one could have noticed your lack of appetite, Miss Ham, but they could have noticed mine, squeal, squeal," said Brother Bacon.

"But I think I could eat again now."

"I have a springtime appetite," said Sammy Sausage. "Squeal, squeal, I most certainly have."

"So have I, grunt, grunt," said little Grunter.

"I could eat a morsel of food, too, squeal, squeal," said little Black Squealer.

"Ah, for a nice rest in the mud and a good banquet," said Sir Percival Pork.

"Not a bad idea, not a bad idea," said Sir Benjamin Bacon.

"Cock-a-doodle-do, a pleasant day," said Red Top the Rooster.

"Cackle, cackle," said Mrs. Hen. "A pleasant day indeed, Red Top."

"Quack, quack," said Mrs. Duck. "I feel just like a brook party. I do believe I'll give one."

All the ducks waddled after Mrs. Duck, who led the way down to the pond.

"Ba-a-a-a-a," said Sir William Goat, otherwise known as Billy Goat. "I must have a walk around the barnyard and see what there is to eat. A walk will help my appetite and make something of which I may be justly proud."

"Ba-a-a-a-a," said the little lamb, "we love to play this lovely day."

"Me-o-o-o-o," said Jots, the cat. "I must have a nice sleep in the sunshade. It will do me good. Then a cupful of warm milk and all will be well."

"Gobbie, gobbie," said the turkeys. "The little turkeys are becoming stronger every one of these fine spring days."

"Gobbie, gobbie, they're a lovely little lot of turkeys."

"I'd Enjoy a Good Meal Now."

So everything and everyone on the farm felt that Springtime had visited them, for though they didn't actually know of her visit to them the night before, they all said that spring was certainly in the air.

On Their Way to School.

feel its gentle influence in the air.

"Somehow it feels like spring today," said the farmer. "I must start my planting."

"I've got lots of ideas for my garden this year," said the farmer's wife. "You know it does feel just like spring today."

The children gathered little blossoms on their way to school and as the soft spring air came in the school windows they found it hard to think of anything else but the woods and flowers that might be out, and birds that might have arrived for the summer, and walks that would be so lovely, and games to be played outdoors now that it seemed so pleasant.

"Spring has come, grunt, grunt," said Grandfather Porky Pig. "I have a good spring appetite."

"So have I, squeal, squeal," said Master Pink Pig.

"I'd enjoy a good meal now," said Pasty Pig. "Really the spring is giving me an appetite."

"To like a bite myself," said Mrs. Pinky Pig.

"So would I," said Pinky Pig's mother.

"Spring certainly is in the air. I hadn't any appetite for quite a while and now I feel my old self again," said Miss Ham.

"Squeal, squeal, no one could have noticed your lack of appetite, Miss Ham, but they could have noticed mine, squeal, squeal," said Brother Bacon.

"But I think I could eat again now."

"I have a springtime appetite," said Sammy Sausage. "Squeal, squeal, I most certainly have."

"So have I, grunt, grunt," said little Grunter.

"I could eat a morsel of food, too, squeal, squeal," said little Black Squealer.

"Ah, for a nice rest in the mud and a good banquet," said Sir Percival Pork.

"Not a bad idea, not a bad idea," said Sir Benjamin Bacon.

"Cock-a-doodle-do, a pleasant day," said Red Top the Rooster.

"Cackle, cackle," said Mrs. Hen. "A pleasant day indeed, Red Top."

"Quack, quack," said Mrs. Duck. "I feel just like a brook party. I do believe I'll give one."

All the ducks waddled after Mrs. Duck, who led the way down to the pond.

"Ba-a-a-a-a," said Sir William Goat, otherwise known as Billy Goat. "I must have a walk around the barnyard and see what there is to eat. A walk will help my appetite and make something of which I may be justly proud."

"Ba-a-a-a-a," said the little lamb, "we love to play this lovely day."

"Me-o-o-o-o," said Jots, the cat. "I must have a nice sleep in the sunshade. It will do me good. Then a cupful of warm milk and all will be well."

"Gobbie, gobbie," said the turkeys. "The little turkeys are becoming stronger every one of these fine spring days."

"Gobbie, gobbie, they're a lovely little lot of turkeys."

"I'd Enjoy a Good Meal Now."

So everything and everyone on the farm felt that Springtime had visited them, for though they didn't actually know of her visit to them the night before, they all said that spring was certainly in the air.

"To like a bite myself," said Mrs. Pinky Pig.

"So would I," said Pinky Pig's mother.

"Spring certainly is in the air. I hadn't any appetite for quite a while and now I feel my old self again," said Miss Ham.

"Squeal, squeal, no one could have noticed your lack of appetite, Miss Ham, but they could have noticed mine, squeal, squeal," said Brother Bacon.

"But I think I could eat again now."

"I have a springtime appetite," said Sammy Sausage. "Squeal, squeal, I most certainly have."

"So have I, grunt, grunt," said little Grunter.

"I could eat a morsel of food, too, squeal, squeal," said little Black Squealer.

"Ah, for a nice rest in the mud and a good banquet," said Sir Percival Pork.

"Not a bad idea, not a bad idea," said Sir Benjamin Bacon.

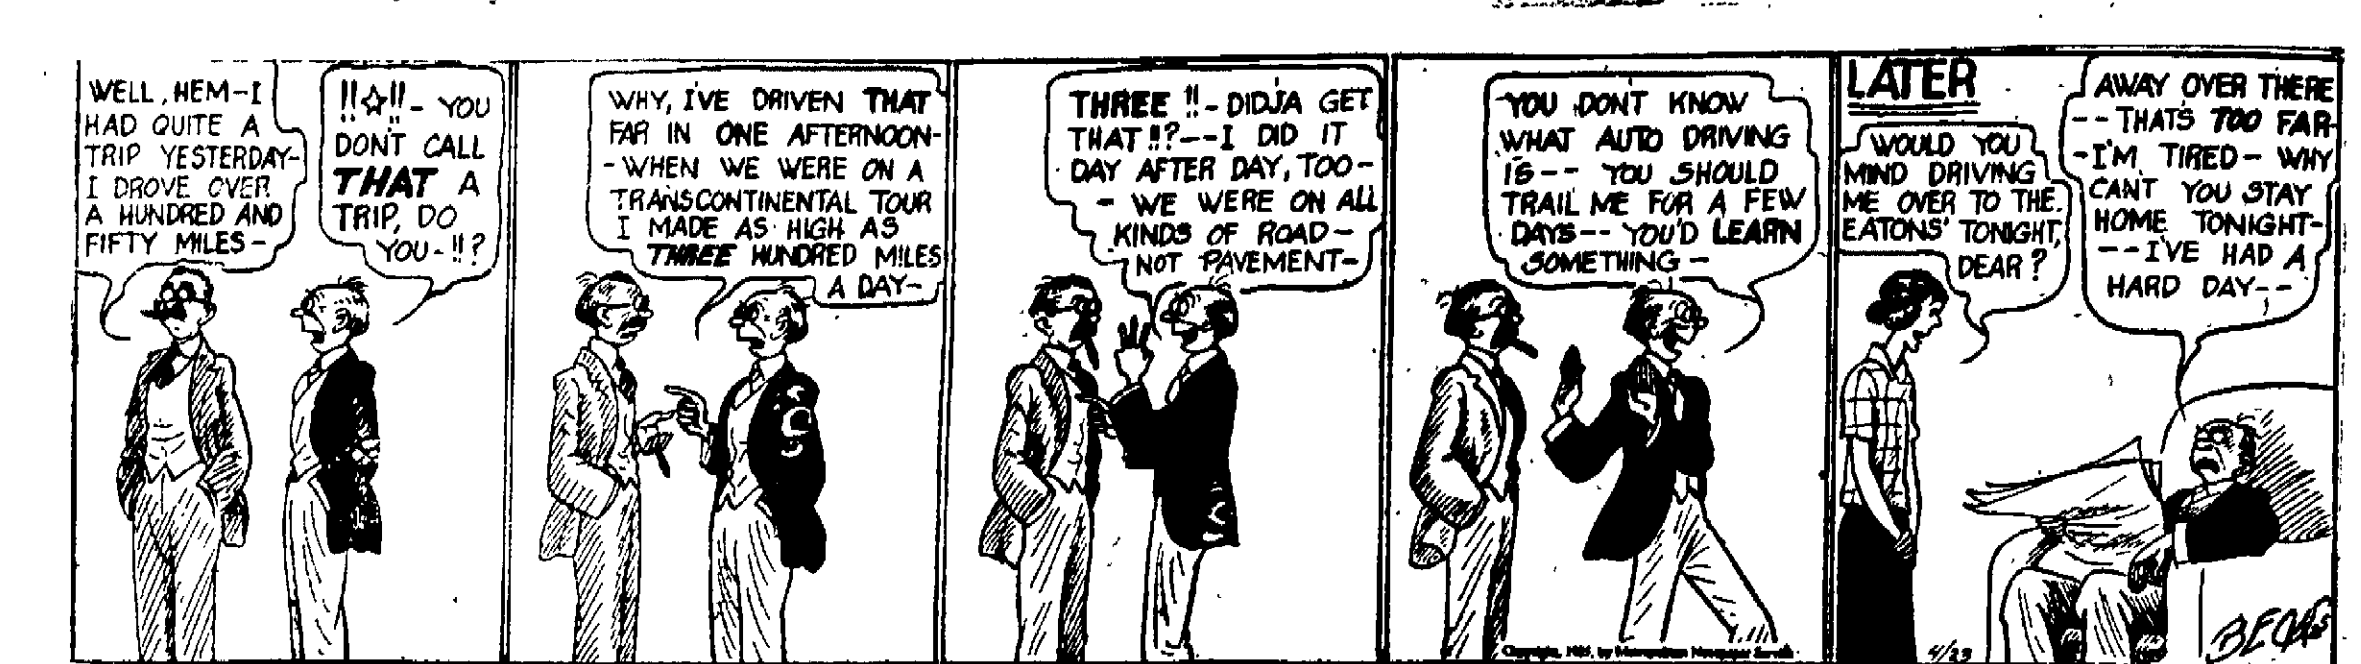

"Cock-a-doodle-do, a pleasant day," said Red Top the Rooster.

"Cackle, cackle," said Mrs. Hen. "A pleasant day indeed, Red Top."

"Quack, quack," said Mrs. Duck. "I feel just like a brook party. I do believe I'll give one."

All the ducks waddled after Mrs. Duck, who led the way down to the pond.

## GAS BUGGIES—He's a Great Guy—Away From Home.

## HIGH LIGHTS OF HISTORY

## X—Colonization of the West Indies

by J. CARROLL MANSFIELD

Copyright, 1924, by The McClure Newspaper Syndicate.

## THE KITCHEN CABINET

(© 1924, Western Newspaper Union)

This world is a difficult world, indeed. And people are hard to suit. For the man who plays on the violin is a bore to the man with the fute.

### GOOD THINGS TO EAT

A very simple potato salad may be prepared, using boiled potatoes. Make small balls using a small French scoop, marinate the potato balls in French dressing until time for serving, then drain and roll in finely minced parsley, arrange on lettuce leaves and garnish with roses of mayonnaise.

For a green and white luncheon, mix cream cheese with enough thick cream to mold into balls. Prepare half of the cheese by mixing with chopped chives and parsley or with young onions chopped. Arrange the balls in nests on lettuce and serve with a salad dressing passed in a bowl.

Hungarian Goulash.—Cut into small pieces one-half pound of fresh pork fat, brown in a saucepan, remove the pork scraps, add one onion to the fat (finely chopped); when brown add two tablespoonsful of flour, one-half teaspoonful of paprika, one-fourth teaspoonful of pepper, one tablespoonful of salt, and one-half cupful of strained tomato; stir until smooth, add two pounds of the bottom of the round of beef cut into inch cubes; add also one cupful of water, one clove, one bay leaf, one teaspoonful of chopped parsley and one stalk of celery chopped fine. Pour into a casserole; cover and cook in a slow oven three hours.

Baked Sweetbreads With Bacon.—Blanch the sweetbreads by soaking in water, changing until the water remains clear, then cook until firm and white at simmering temperature. Remove the pipes and fibers, roll each tight in a piece of cheesecloth and press under a weight for several hours. Beat one egg with a teaspoonful of salt, brush the sweetbreads with this mixture, and after over them fine bread crumbs. Arrange slices of bacon in a dripping pan, on these place the sweetbreads, and cover with another slice of bacon. Bake 20 minutes in a hot oven. Serve with the sauce from the pan, thickened, and one tablespoonful of lemon juice added.

Van Stenburgh, Helen Hickel, Guinec, Helen Bennett, Helen Sienker, Harriet Loomis, Ellen Swartzwelder, Beniah Short, Earl Bennett, Justin Wright and Eldert Kilmer.

A number from this place had a very pleasant time at Mr. and Mrs. Zimera's. Mr. Pleasant, in honor of the birthday of Margaret Keating.

There were four who united with the Baptist church Sunday evening. The Rev. Mr. Coffey is a good worker and preaches Bible doctrine and that is the gospel that counts. It brought converts to a Christian life in the past and it will do the same now days.

Saturday was a pleasant sunny day and one could hardly believe they were awake and hearing the hail come down Sunday morning. In some parts of the town of Hunter, hail was over an inch deep. Monday the snow squalls marked the day and thick ice was formed during the night. If the change of season gets a little more marked, the Florida dwellers will have to spend the summer as here to keep cool.

J. Ely and wife are making a prolonged stay at St. Petersburg, Florida. Mr. Ely is much better in health in the climate there and so Boston Transcript.

From the old days, now no more, of  
free passes for industrial folk on  
the railroad.

"Contrary to the general impression," the New York World Information, "Mr. Coolidge consults with the  
other Senate leaders perhaps more  
elaborately than any of his predecessors did. Where he differs from  
those other Presidents is that he dis-  
regards the counsel as often as he  
accepts it." This is the most grat-  
ifying statement that has emanated  
from the Washington correspondent  
of the Democratic spokesman in  
many moons.

## That Body of Yours

By James W. Barlow, M. D.

(Registered in accordance with the  
Copyright Act.)  
A THOUGHT ABOUT EPILEPSY.

From time to time a new cure for  
epilepsy is brought forward, and the  
evidence presented is rather conclu-  
sive. However in a few months or  
perhaps longer, the "fit" returns,  
and another so called cure is put  
aside.

Some years ago remarkable re-  
sults were obtained in one hospital  
by the removal of a portion of the  
large intestine. In a series of over  
fifty cases the attacks ceased in every  
patient. They began to return again  
in some in four months, others in  
eight months to a year, and so forth,  
although perhaps a dozen cases were  
still free two years afterwards.

Brilliant results were obtained also  
by the removal of the appendix in a  
series of cases, but the attacks re-  
curred after varying periods. Now  
your family doctor will tell you that  
by strict diet, avoiding overeating,  
he has been able in many cases to  
keep the number of attacks down by  
at least fifty per cent.

Other physicians report that by  
the simple method of washing out  
the stomach, they have been able to  
keep patients almost free from at-  
tacks. Notwithstanding all these  
systems of treatment by the stomach  
and intestine, our nerve specialists  
still attribute epilepsy or "fits" to  
some derangement in the brain itself.

They readily admit that the stom-  
ach, intestine, and the diet are fac-  
tors of some kind, but the trouble is  
one of the nervous system itself.

One of our British physicians is  
again stressing the point that the  
intestine is the important factor, and  
is responsible for symptoms in the  
brain and nervous system.

He points out that in a series of  
epileptics studied from every angle,  
that is the blood, urine, intestinal  
residue, teeth, tonsils, and so forth,  
that the one thing that he found in  
every case was a slow acting in-  
testine with constipation.

You can understand that many of  
these folks live in the shadow of  
the attacks, and are therefore greatly  
depressed.

They do not "mix" with others,  
play games, or take any exercise.  
The result is just this "slowdown," al-  
most "stoppage," of waste material  
along the intestines.

The standard remedy, the bro-  
mides, is perhaps the best at hand,  
but it is terribly depressing to all  
the functions of the body. It would  
appear that our best results are still  
obtained by attention to diet, and  
the stimulation of intestinal move-  
ment by exercise.

HIGH WOODS.

High Woods, April 23.—Mrs.  
Eliza C. Short, who has been with  
her son, Jerry, in Long Island City  
for the winter months, has returned  
to her home here. Mrs. Jerry Short  
and three sons came with her for a  
few days.

Robert Fellen of Kingston spent  
his Easter vacation with his grand-  
parents, Mr. and Mrs. Alex. Fellen,  
returning home Sunday.

Mrs. Charles Longendyke of  
Brooklyn and Mrs. Ella Longendyke  
of Kingston spent the week end with  
Mr. and Mrs. S. V. York.

Our day school is reopened after  
a week's vacation.

Edna M. Shadler spent Friday with  
her aunt, Mrs. Lewis E. Snyder.

A brush fire which started on the  
field of A. G. Friedrich was kept  
from getting into the woods through  
the efforts of the men who were called  
to help.

HURLEY.

Hurley, April 22.—On Friday  
evening, April 24, the young people  
gave a play entitled, "Mrs. Briggs  
of the Poultry Yard" in the basement  
of the church. Proceeds for the  
sending of C. E. delegate to the State  
Convention.

On Saturday, April 25, the Ladies  
Aid will hold a food sale at the  
Wonderly store in Kingston. Pro-  
ceeds for the painting and papering  
of a room in the parsonage.

On account of failing health B. K.  
Markle has been compelled to resign  
as janitor of the village church. Mr.  
Markle has served long and faith-  
fully, having been janitor for over  
forty years. During that time there  
have been many changes.

The Rev. and Mrs. Charles W.  
Smith have gone to Fort Plain to at-  
tend the funeral of Mrs. Smith's  
uncle.

TWENTY AND TEN YEARS AGO.

April 23, 1905.—Frederick Daniels  
and Miss Maggie Freer married.

April 23, 1915.—The summer home  
of Charles A. Spaulding at Saugerties  
burned.

The new high school was officially  
turned over by Contractor George T.  
Kelly and accepted by board of edu-  
cation.

John Quigley, a former resident,  
died suddenly in New York.

Great Sachem William O. Cheney  
and staff paid official visit to Red Men  
today here.

sented a magnetic personality and a  
singer that is entirely free from ef-  
fectiveness."—Boston Transcript.

## Record March Price for Milk

Recent Changes By League Bring  
Higher Returns To Organized  
Dairymen—Record Number of  
New Contracts Submitted.

League dairymen everywhere are  
expressing satisfaction over the an-  
nouncement of a net pool price of  
\$2.25 per 100 pounds for March milk  
testing three per cent butterfat.  
This is the base price at the base  
zone 201-210 miles from New York  
city. The prices received by indi-  
vidual farmers will vary up or down  
according to the zone in which they  
are located.

The announcement of so good a  
price came as an agreeable surprise  
in many sections. It states that this  
is the highest March price in the  
history of the pooling association.  
In fact, with the exception of the  
three years, 1918, 1919 and 1920,  
when all prices including milk were  
abnormally high on account of war  
conditions, this is the highest price  
ever received by dairymen for their  
March milk.

The net pool price for March 1924  
was \$1.84; March 1923, \$2.13;  
March 1922, \$1.68.

President Slocum in his monthly  
letter to the members point out that  
it again has been possible to omit  
the deduction for certificates of in-  
debtedness. He also calls attention  
to the fact that the deduction for  
expenses is one cent per 100 pounds  
less than in February and that al-  
though the average weighted price  
for all March milk in all classes was  
13 cents lower than for all classes  
of February milk, nevertheless the  
pool price only shows a drop of four  
cents. It is stated that this is due  
to the fact that the league's own  
plant operations have recently been  
showing considerable gain in effi-  
ciency and consequent better returns  
to the members.

President Slocum emphasized  
again the fact that the changes that  
have been put into effect by the  
league during the past year and  
which have resulted in marked ex-  
pansion of the league's fluid markets  
have made it possible for the asso-  
ciation to exert a stabilizing effect  
on the milk markets.

This has resulted in preventing  
an abrupt drop in the price of milk  
to farmers which has usually oc-  
curred at this time of the year when  
the flush season is advancing rapidly.

Recent reports from league  
headquarters indicate that new con-  
tracts are being submitted to the  
association in larger numbers than  
ever before in its history. 239 new  
contracts were received during the  
month of February and 638 during  
the month of March. Every con-  
tract received by the association  
must be passed upon by the execu-  
tive committee before acceptance.  
The above figures do not include  
many contracts refused by the asso-  
ciation.

Today We Celebrate

FLORINE.

Florine was a daughter of the  
Duke of Burgundy, and was be-  
thorowed to Suenon, king of Den-  
mark, and she accompanied this  
prince to the first Crusade. In 1097,  
she was to have married him im-  
mediately after the conquest of the  
Holy City. However, in a terrific bat-  
tle with the Saracens, they were both  
killed, as were all their companions,  
not one being left to bury the slain.

SPANISH WAR, PAUL JONES, ETC.

The first gun of the Spanish-Amer-  
ican war was fired by the U. S. Gun-  
boat Nashville across the bow of the  
Spanish ship "Buena Vista" on this  
date in 1898.

Captain Paul Jones, U. S. N., de-  
stroyed the shipping in Whitehaven,  
England, on this date in 1778, to the  
astonishment and dismay of the  
British, who, although they had been  
busily engaged in seizing American  
sailors from American merchantmen,  
had never dreamed that the infant  
Republic could or would dare to  
carry the war to their own shores.

William Shakespeare was born on  
this date in 1564, and died on the  
same date in 1616.

First operation for appendicitis  
was performed thirty years ago to-  
day.

Chauncey M. Depew was born on  
this date in the year 1834.

ORDER OF THE GARTER.

The first Knights of The Order of  
The Garter (K. G.) originally called  
the Order of St. George, received  
the insignia of membership on this  
date. St. George's Day, in the year  
1349, the founder was Edward III.,  
and the original membership was  
twenty-five. The King, having been  
victorious on land and sea and hav-  
ing king David of Scotland a pris-  
oner, fulfilled the order in recogni-  
tion of the valor of his bravest  
knights.

The garter which is the insignia of  
the Order is of blue velvet bordered  
with gold, with the inscription in old  
French, "Etil to him who evil there-  
of thinks." There is a tradition that  
the Countess of Salisbury, while  
dancing, lost her garter, which her  
partner, the King, stopped to pick up  
and return, whereat some of the  
courtiers laughed.

At that Edward III. was fully  
aware, "evil to him who evil there-  
of thinks," and declared he would  
make that earlier the most glorious  
emblem in the land. This story,  
while interesting, is probably untrue.

Origin of Word "Nubia"

The name of Nubia, the land from  
which the Egyptians obtained their  
gold, is derived from "nub," the Egyp-  
tian word for gold.

Islands Always Growing

The islands of Hawaii are constan-  
tly being built up from the ocean by  
portions of lava ejected by volcanoes,  
which form new land.

## "World's Greatest Buy"

Everyone Says It—Sales Prove It

It is only as you find the real comparisons for Hudson qualities  
among the costliest cars that the enormous difference in price  
is so astonishing.

Today it offers the greatest price advantage and finest quality  
in Hudson history. Never was this supremacy of value so out-  
standing. And the greatest Hudson sales on record show how  
complete is public knowledge of the facts.

Is There Any Reason to Pay More?

Hudson's position as the "World's  
Greatest Buy" is not merely a new  
attainment. It is acknowledgment  
of ten years' refinement of a great  
car around the famous patented  
Super-Six principle. No motor de-  
sign, however costly, has been  
found to displace this long-time  
leadership of the exclusive  
Super-Six.

And today, economics possible  
only to the largest production of  
6-cylinder closed cars give it value  
advantages never held by any rival.

All now know that higher price  
can buy no smoother performance  
than Hudson's. It cannot buy  
more brilliant results in accelera-  
tion, power or speed. It cannot buy  
greater reliability or endurance.

Its simplicity has always meant a  
lower selling price than is per-  
mitted in complicated types.

No car at or near the price rivals  
the Hudson Coach in actual  
proof of value—which is SALES.

NOTICE OF DISSOLUTION.

NOTICE IS HEREBY GIVEN, that the  
partnership lately existing between ED-  
GAR N. PALEN and SANFORD P. BOUTON,  
was on the 7th day of April, 1925,  
dissolved by mutual consent of the parties.  
All debts due and owing said partnership  
have been sold and assigned to Ingalls &  
Bouton Coal Company, Incorporated, which  
has purchased the property and assets of  
Palen & Bouton. The payment of all claims  
and demands against said partnership have  
likewise been assumed by Ingalls & Bouton  
Coal Company, Incorporated, and are to  
be presented to said corporation at its  
office, at Kingston, New York, for pay-  
ment.

Dated, April 7th, 1925.

## FRECKLES

Don't Hide Them With a Veil; Remove Them With Othine—Double Strength.

This preparation for the removal of freckles is so successful in removing freckles and giving a clear, beautiful complexion that it is sold by all drug and department stores with a guarantee to refund the money if it fails. It is a cream which you rub into your freckles under a veil or at night on lemon juice or camomile; it is a cream of Othine and removes them. Then the first few applications should show a wonderful improvement, some of the freckles vanishing entirely. Be sure to ask for the double strength Othine, it is this that is sold in money.

## Is Housework Keeping You Tired and Weak?

Thousands of tired, nervous, run-down women who must daily perform exhausting housework and care for children, would be astonished to learn that in most instances their fatigue, headaches, nervousness and haggard appearance are not entirely necessary. For physicians say that in an enormous number of cases these symptoms are due merely to the lack of sufficient iron in the blood. And now that Science has perfected a new combination of iron, like the iron in the blood, it is, in many cases, easily possible for people to increase their strength, nerve force and endurance in only two weeks time. Any doctor will tell you that without sufficient organic iron, your blood loses its power to change food into firm, healthy flesh and tissue. So nothing you eat does you the proper amount of good. You become undernourished, weak, nervous, and lacking in physical force and endurance.

What you need, then, is organic iron—Naxated Iron—to enrich your blood and give you strength. For Naxated Iron is organic iron, like the iron in your own blood. Try it just two weeks and notice the astonishing improvement. Money back if not delighted. But be sure you get genuine Naxated Iron, with the letters NI on every tablet. This is the only kind sold under this absolute money-back guarantee. Ask all good druggists.

## Why Suffer With Itching Rashes

When a warm bath with Cuticura Soap and application of Cuticura Ointment will afford immediate relief and point to permanent skin health in most cases when all else fails.

## War Department Wants to Know

Seeking Information of River and Harbor Improvements Desired in This Locality—Examination and Survey Now Under Way.

That an examination and survey of that part of the Hudson lying in this Congressional district is now under way by the District Engineer of the War Department, is indicated in a letter received by Representative H. J. Pratt from Colonel W. B. LaDue, District Engineer. The Rivers and Harbors Act of March 3 directs the examination and survey of the Hudson River as a part of the Deeper Hudson Project, and to Colonel LaDue has been assigned the duty of reporting on the project. In his letter to Representative Pratt, Colonel LaDue asks for the names and addresses of parties interested in the improvement desired in this locality, so that he may obtain requisite information as to the nature of the improvement wanted and the extent of the commerce or other industries in behalf of which the examination was ordered.

### NEW PALTZ.

New Paltz, April 23.—The producers of the "Mile Post Revue," a musical extravaganza given by the employees of Luckey, Platt & Company in Columbia Institute, Poughkeepsie, have consented to repeat it in New Paltz, April 30, for the benefit of St. Joseph's Church. The annual meeting of the Study Club was held in the library, April 14 and the following officers elected for the year 1925-1926: President, Mrs. Lawrence Van den Berg; recording secretary, Mrs. Walter Haasbrouck, Jr.; Mrs. M. L. F. Eltinge, corresponding secretary; treasurer, Mrs. Luther Terwilliger. Lewis Clapp, class of '27 at Union College, who has been spending his vacation with his parents, the Rev. and Mrs. Ernest Clapp, was chosen captain of the college swimming team, an honor that has hitherto always gone to a member of a higher class in college.

Tuesday afternoon, May 12, Mrs. Henry Fairfield Burton will address the Study Club at Grange Hall. Mrs. Burton is deputy commissioner of the Motion Picture commission of New York state. The Women's Christian Temperance Union met with Mrs. Frank Gerow Wednesday afternoon, April 22. Huguenot Grange met Saturday night with Mr. and Mrs. A. D. McKinstry as host and hostess. During the Easter services at the Reformed Church, Dr. Clapp baptized four children, three from his former church in Poughkeepsie and the infant daughter, Gloria Lucile, of Mr. and Mrs. Guy Gardner of New Paltz. About forty boys and teachers of the Mohonk School attended the services also.

Extensive improvements are being made at Blue Crane Inn. The interior is to be renovated with new floors and fixtures. A new entrance on Main street is in course of construction. On North Front street an entrance and dining porch of cobble stone are to be built. Meals and refreshments will be served on this porch.

Mrs. Oscar Sutherland was a recent visitor in Poughkeepsie. Mr. and Mrs. Perry Deyo have been visiting their daughter and family in Brooklyn.

M. L. Newton of the Middletown neighborhood, who recently sold his residence and a portion of his farm to Mrs. Haggerty of Poughkeepsie, is putting up a new building.

Mrs. Joe Connolly's mother and two sisters, Florence and Mary Cummings, are spending a few days at the Wigan.

Miss Florence Kaiser has been visiting in New York.

Mrs. Margaret Alexander Marsh of Amherst, Mass., is visiting her mother at Orchard Terrace Inn.

Helen Miller entertained twelve girl friends Saturday afternoon at a birthday party.

Miss MacFarlane's sister and a friend are spending a few days in town. Miss MacFarlane is recovering from her recent illness.

Mr. and Mrs. C. H. Vail spent Easter with Mrs. Elizabeth Wicks, Mr. Vail's step-mother, at Binghamton.

### OLIVE BRIDGE.

Olive Bridge, April 23.—Following are those who attended school regularly: Henry Merrihew, Chester Rotello, Harry Bush, Theodore Weber, Myrtle Cornish, Dorothy Rose, Camilla Davis, Violet Christensen, Dorothy Hoyer, Marion Davis, Ida Mae Davis, Jennie Beemer and Ella Krum.

Miss Gladys Van Demark has returned to school again after having her tonsils removed.

Mrs. Arthur Winne and son, Ward, of Arlington spent a few days at this place last week.

Mr. and Mrs. Edwin Gessner and daughter, Edna, spent the week end at New Jersey.

Emily Hoyer, Edna Gessner, and Davis, Myrtle Cornish and Violet Christensen spent Saturday with Gladys Van Demark.

Joseph Hesler is spending a few weeks at Mrs. Monaghan's place at Olive Bridge.

Miss Bertha Merrill spent the week end at the home of Mrs. F. W. Cornish.

Grover Christensen and family, also Myrtle Cornish, spent Saturday night in Kingston at the theater.

Mrs. Christensen made a business trip to Kingston Tuesday.

Mrs. P. R. Crawford and family spent Easter week at their home in this place.

Miss Blanche Hoyer has been sick with tonsillitis.

Charles Jansen is janitor of the church.

Edwin Gessner's new house is improving fast.

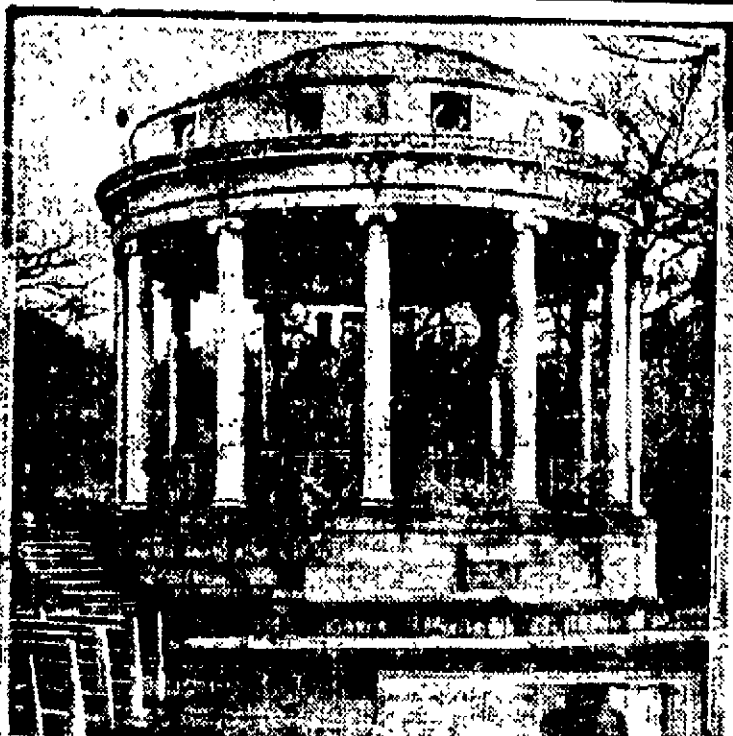

Mr. and Mrs. DeForest Bishop and daughter, Virian, spent Sunday with her sister, Mrs. Grover Christensen.

Grover Christensen is painting his house.

Water Supply on Ship.

Big ocean liners now carry sufficient fresh water for passengers and crew to last a town of 2,000 population a week.

## How Boston Common Hears

The bandstand in Boston Common, with the sound projectors around the rim above the pillars. Below: The announcer before his microphone.

On historic Boston Common, unobtrusive sound projectors in an artistic bandstand are the open sesame to all kinds of entertainment for all who gather around. The projectors distribute the sounds amplified by a Public Address System, the amplifiers of which are concealed in an apparatus room under the stand. And the sounds may originate with a band upon the spot or may come from a broadcasting studio.

This installation greatly widens the possibilities of the city park and demonstrates the model park just as for some years past the world has had demonstrations of the model home and the model kitchen.

The big bronze door in the base of the bandstand opens upon the control room which is an interesting exhibit.

Here stand the two big panels of the Western Electric Public Address System, and the motor-generator set to convert the electric supply to alternating current. On a table is the radio receiver and loop with which broadcast programs are picked up whenever desired.

### ZENA.

Zena, April 23.—Dan Lynch has purchased a new Ford car.

Miss Dorothy Allen spent Easter vacation with her parents at Glens Falls.

Everyone reported a fine time at the shadow party given by the Zena Country Club at Miller's home. Forty dollars were cleared.

The Ladies' League held its monthly meeting Friday afternoon with an unusual attendance. After the meeting the afternoon was spent in quilting and refreshments were served.

The many friends of Mr. and Mrs. Eugene Hung gathered at their home Friday evening. A pleasant time was spent by all. At midnight all departed wishing the bride and groom many years of happiness.

Mr. and Mrs. Irving Riseley of Woodstock spent Sunday with Mr. and Mrs. H. A. Harcourt.

Miss Helen Kelley has returned to the Lynch's for the summer. Everyone is glad to have her back.

Mr. and Mrs. John Carnright entertained relatives over the week end.

Miss Carrie Carnright is gaining slowly. Her many friends are glad to see her smiling face once more.

David Mellert spent the week end at his home here.

Mrs. Barry Ots entertained guests the past week.

Mrs. Vic Victor and daughter, Dorothy, are visiting her mother, Mrs. Krause.

## LACKS WHEELS AND RAILROADS

### Medieval Foochow Does Foreign Business of Huge Proportions.

Washington — "Foochow, China, scene of a reported demonstration against foreign traders has no railroad tracks nor any wheeled vehicles on its streets. It lies 24 miles from the sea, but it does a provincial and foreign business of huge proportions," says a bulletin from the Washington headquarters of the National Geographic society.

"Few travelers go there. Those who do find themselves in a place where the charm of medieval custom vies with the stench of medieval sewage disposal.

"Paradoxically, if one wishes a sweet-smelling spot he should seek out one of the 47 factories which make Foochow's flower-scented tea. These factories buy more than \$100,000 worth of white jasmine flowers yearly, which they use for boiling with the tea leaves to produce the delicate fragrance. The women wear a permanent headdress of swords and daggers.

"To reach Foochow one sails from Hongkong or Shanghai—it lies midway between these ports—and opposite the north end of Formosa (Taiwan) the ship steams up the Min or Snake river.

"But the ocean-going vessel must halt at Pagoda Anchorage, nearly ten miles below Foochow, because, half a century ago, stone-laden barges were sunk here to repel an enemy attack. Legend has it that the sword-and-dagger headdress of the women is a memento of a siege when China was a group of petty, warring states, and her men went forth to fight an army of invaders. When the men were driven back inside the city walls the women seized their weapons, and sallied forth to a glorious victory over the astonished marauders.

#### River Traffic Problem.

"Above Pagoda Anchorage the visitor finds a river traffic problem as acute as the automobile congestion of an American city. Gone are the tea-clippers, the ships that carried the name and aroma of Foochow to London tables, and gone are the famous Foochow pirate craft. But in the vessel mass one still discerns the sprawling junk with sterns as high as those of the old Spanish galleons and curious up-river craft which find water highways through Fukien province. These jostle for places alongside house boats of ancient design and bright, new steam launches.

"When a small boat lands you at Foochow wharf, it still is three miles overland to the vine-grown, towered walls of the old city. No taxis await your signal, no cabs, not even a rikisha. Only the native chairs are available. The streets of the ancient city are too crooked, too badly paved, and too narrow for even the most primitive sort of vehicles on wheels.

"Ancient as Foochow seems to the western world, it is a sort of Wild West in the eyes of Peking or Canton. In the days of Confucius, China proper looked upon the province that now is Fukien as a region of barbarians. The walled city did not rise until the Ming period, which covered the years that America was discovered and colonized.

"Tea, timber and paper, load down most of the outgoing boats. From up-river come many cargoes of fruit, cotton for the Foochow mills, and rice. Flled on its wharves are wheat, peas, onions, salt, silver, white plums and dates. The overland journey to Foochow is avoided even by the natives; but the Min and its branches give the city a waterway access to 27 walled towns and to many smaller villages.

**Have Secret Lacquer Process.**  
"Foochow imports the sap of the so-called varnish tree, and uses it in a lacquer of exceptional luster. One family, for many generations, held a secret process which made Foochow lacquer-ware far-famed. This process required applications for a dozen or more times.

"On a mountain not far from the city one encounters the dog-worshippers—easily distinguishable for the peculiar coiffure of their women; a scarf-like effect with a cord dangling before the face. This is worn because of a myth which holds that a dog once saved the city and the gods rewarded him by subjecting him to a process by which he was to become human after his incarceration for seven times forty days.

"Even nearer the city is 'Doctrine Hill,' which derives this one of its many names from the residence there of a certain learned man who accumulated a library—a 369-volume shelf—known as 'The Doctrine of the Universe.' On this same hill are 'six times six' wonderful things, including the inevitable rock showing the footprints of Buddha.

"On another hill is a place where a very pious priest used to sit reading a book. One night there was a thunderstorm which split the rock, but the parts fell so that a cone was formed so the holy man might read in peace.

"A familiar touch is manifest on Black Rock Hill—a touch which makes the name carriers of the East and West kin—by the inscription left there by two climbers, which reads:

"In the reign of the Emperor Kuan-yin Hsu, 2nd day, 12th moon, 21st year, Chen Hsiao and Liu Hsiao, climbed on the summit of Black Rock Hill."

#### Radio Helps Police

Motorcars fitted to receive or transmit radio messages have proved of great aid to London police in the capture of automobile bandits.

## Love Test Wins

A year's love test has reunited Lamarr Brace, of Detroit, and his bride, who was Rita Cole. Their secret marriage is now made known. The young couple eloped, and their families, to test their love, compelled them to live apart for a year. The parents of both are now convinced the wedding is for the best. The bride and bridegroom are now on their long delayed honeymoon.

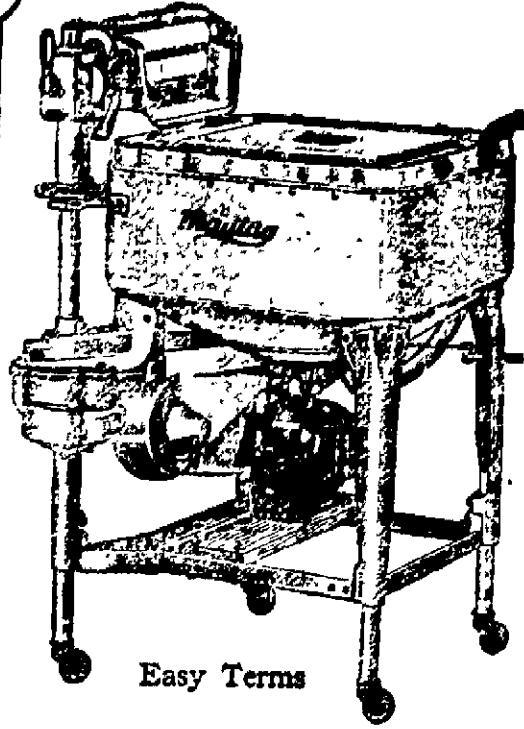

#### HIGH FALLS

High Falls, April 23.—Divine service will be held in the Reformed church, High Falls, next Sunday morning at 10:30. The subject of the sermon by the Rev. Thomas S. Raithe will be "Can We Keep the Easter Spirit All the Year?" Sunday school at 9:40. Thomas Snyder superintendent. Christian Endeavor meeting at 7:30.

## CARTER'S LINIMENT

For tired, aching and swollen feet. It softens the calluses and dead skin like magic. It takes out the burn, strengthens weak, painful arches and keeps the feet fit for a day's work. 50 cents at drug stores. Ask for Carter's. It's different.

## A Woman in Massachusetts Calls it "a Washing Fool"

#### Easy Terms

#### 9 Outstanding Maytag Features

- 1—Washes faster.
- 2—Washes cleaner.
- 3—Largest hourly capacity in the world.
- 4—Most compact washer made—takes floor space only 25 inches square.
- 5—Cast aluminum tub—can't warp, rot, swell, split or corrode.
- 6—Easily adjusted to your height.
- 7—Clothes can be put in or taken out with the washer running.
- 8—Tub cleans itself.
- 9—All metal wringer. Self adjusting. Instant tension release.

#### 9 Reasons for World Leadership

"WHY, it does my whole hamper of clothes quicker than my daughter can do the dishes."

You've never seen anything like it before. "Never been anything like it."

#### Years ahead!

Tub after tub of clean clothes—3 minutes, 4 minutes, never more than 7 minutes! In an hour twice as many clothes as other washers.

For dainty things—even hand methods cannot equal it.

And for pieces that are really downright dirty—a pair of grease-caked overalls, for instance, right off the garage floor—lift them out in ten minutes clean enough to mingle with fine linens!

Try it—wash with the Maytag Gyrafoam Washer in your own home NOW while the Maytag man is here demonstrating. No obligation at all.

#### Rail Lights Needless

All switch and signal lights on the Alaska railroad are discontinued even at night during the long summer season when the "sun never sets." This is the only railroad in the world operating on a 24-hour daylight schedule even a part of the year. It runs between Curry and Fairbanks.

#### Plant Care

The only reason that house plants should not be kept in a sleeping room is that the temperature of a well-ventilated room is lower than the temperature necessary for plants. The average plant should have a night temperature of around 50 degrees and a day temperature of around 70 degrees.

#### No, This Wasn't Said

A parson wrote to his bishop asking him to come and hold a quiet day. The bishop declined, saying, "Your parish does not need a quiet day. It needs an earthquake."—Christian Register.

## New Quick, Cheap and Easy Way to Make Old Autos Look New

Not a Polish. A New Kind of Finish That Needs No  
Rubbing.

A well-known chemist has discovered a dealer, with the understanding that if after  
new kind of liquid that, when flowed on, it will not only clean the surface of the car, but  
kind of metal surface with a piece of cloth, makes it look new and shiny and your money will be  
cheerfully, makes it look new and shiny and your money will be  
immediately. No rubbing of any kind immediately returned to you. There is no  
necessary and best of all it leaves a durable  
finish that is water and dust proof.  
This new liquid is called **FAV** and will  
make your auto look like new in 20 min-  
utes time. So that you can demonstrate  
the wonderful effects of **FAV** on your own  
car without expense, every dealer is au-  
thorized to give you a can to try. You  
merely deposit the price of **FAV** with the  
New York City.

## ANDES GAS RANGES

### AN ANDES OVEN NEVER FAILS

Most women mix cakes, pud-  
dings, etc., from a recipe but  
they guess at the heat needed  
to bake them.

The Heat Regulator on an  
Andes Range takes the guess-  
work out of cooking. It keeps  
your oven at the proper tem-  
perature for the food you are  
cooking and never fails to pro-  
duce desired results.

There are many other ad-

vantages we would like to ex-  
plain to you personally, such  
as Side-Easy oven racks that  
bring the hot dishes out of the  
oven without burning the  
hands, and thermo-sanitary  
doors, ventilated flue and life  
long construction.

Then there is the special slot-

690 BROADWAY, KINGSTON, N. Y.

## REMOVING PAINT FROM MOTOR CAR

Practical Plan Outlined for  
Cleaning Auto, Tractor  
or Machinery.

To remove the paint from the motor  
car body, tractor or farm machinery  
for repainting, coat with a paste made  
of lye as follows:

Dissolve six heaping tablespoonsful  
of cornstarch in three quarts of wa-  
ter in a wooden pail or stone crock  
and in another container dissolve one  
can of lye. Pour the lye solution into  
the cornstarch very slowly, being care-  
ful to stir well all the time. This  
will make a thick paste without lumps.

### Put Paste on Surface.

Paint this on the surface from which  
the paint is to be removed with an  
old brush or swab, putting it on in an  
even thick coat. If on the body of an  
auto, it is best to first remove the  
fenders and running boards or to cover  
them with a thick coat of grease. A  
small section should be covered with  
the paste at one time and should be  
left on until it shows signs of drying.  
It then can be scraped off with a put-  
ty knife, wire brush or steel wool. If  
all the paint does not come off, a sec-  
ond or third coat must be given.

Fenders or cars with enameled  
bodies have the enamel baked on and  
it is not practical to remove this with-  
out placing in a tank of strong lye  
solution which is kept boiling. Wire  
wheels from which the paint is to be  
removed are best treated in this man-  
ner.

### Clean Small Parts.

To remove paint from small parts  
of the tractor or farm machinery, hang  
them in a tub of a solution made by  
dissolving one can of lye in each gal-  
lon of water. The paint on such parts  
is much easier to remove than from  
the auto body and with very little la-  
bor your tractor or mower can be  
made to look like new. This will also  
clean all the grease or oil from the  
parts and leave a clean surface to  
paint over. Wash well with plenty of  
water all parts before repainting.

Do not use this remover on alumi-  
num parts or on cars with aluminum  
bodies. All aluminum trimmings as on  
the running boards must be protected  
with a thick covering of grease.

## Modus Operandi of Tire Repairing Is Outlined

A word as to the modus operandi of  
tire mending may not be out of place.  
The cut to be plugged or vulcanized  
must always be thoroughly cleaned in  
the first place. A cloth soaked in  
gasoline is the best medium for clean-  
ing the cut. If it is a deep one the  
cloth may be used on the end of a  
screwdriver.

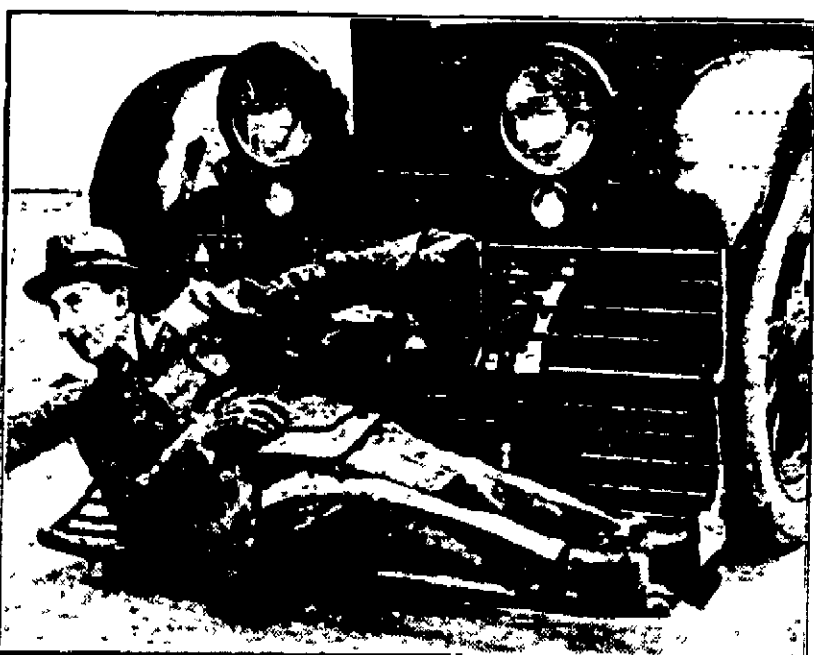

After the cut and the surrounding  
area have been thoroughly cleaned and  
are dry a coat of cement is applied to  
the sides and bottom. After this has  
dried another coat is put on, and  
when this has dried the tire mender is  
applied. A bit of the filler is worked  
into the cut with the blade of a knife  
or a screwdriver. In case the tire  
must be used on the road immediately  
a small piece of cloth or paper should  
be cemented over the repair to keep  
dirt from being picked up.

No car should go on the road with-  
out a complete tire repair outfit, port-  
able vulcanizer, cement, filler, patches,  
etc. These outfits may be had in a  
variety of forms and they will repay  
their cost times over.

### Reduce Wearing

To secure uniform wear from a set  
of tires, change them around about  
once a month. It is particularly im-  
portant to reverse the rear tires. After  
the rear tires are worn down re-  
verse them with the front. The in-  
creased wear on tires is actually  
caused by the pitch of the road, which  
throws more of the car on the right  
side than on the left. The round of  
the road from curve to curve is far  
more important in determining the  
sequence in which tires normally wear  
out—right rear, left rear, right front,  
left front—than are gutter wear and  
abrasions from grinding off and on  
pavements.

## NEW SAFETY FENDER FOR AUTOS INVENTED

A new protective fender for automobiles called the national safety fender,  
was recently demonstrated by the bureau of public safety of the police depart-  
ment. The fender which projects about the same distance as an ordinary  
fender is said to be positive in action and will protect a pedestrian from be-  
ing run under the wheels. The fender drops on contact or by control of driver.  
Photograph shows J. A. Ridgway picked up by the fender.

## Noise of Squeaky Brake May Be Remedied Easily

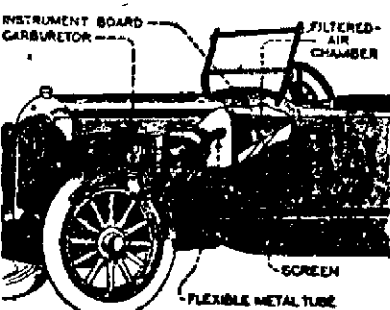

When a brake squeaks it shows that  
it is not doing its work efficiently, as  
correct braking operations consist of  
a smooth gripping action without  
squeaks or chatter. Chatter is caused  
by an alternative gripping and releas-  
ing of the bands on the drums. This  
is caused partly by the design of the  
bands and partly by the method of  
fastening the linings. As the bands  
are open on one side, they cannot con-  
form to the shape of the drums unless  
they are of the right shape.

If, when the pedal is pressed, the  
bands start to wrap from the bottom  
and continue upward on both sides,  
the chances of chatter are not so  
great. But if the bands take hold first  
at the top, the slack on both sides  
must be taken up first before they will  
lie flat on the drums, producing chat-  
ter. If the bands are bent or kinked  
when the linings are attached, they  
will not grip the drums evenly, pro-  
ducing chatter and uneven wear.

Squeaks are caused by the linings  
becoming hard and glazed, due to the  
friction and the application of pres-  
sure which presses the grit into the  
linings. Roughing the surface of the  
linings with a saw blade or coarse file  
will usually remedy the trouble, says  
Automotive Digest. Probably an eas-  
ier way is to apply a mixture of castor  
oil and powdered resin to the linings.  
The former acts as a softener, while  
the latter increases the frictional re-  
sistance.

## Carburetor Air Filter Keeps Out Much Grit

Analysis of the incombustible de-  
posit in the cylinder of an auto engine,  
after the carbon had been burned out,  
showed it to consist of ordinary sand,  
clay dust and limestone dust, which  
had undoubtedly been drawn into the  
motor through the carburetor. As the  
sand is highly abrasive, it is obvi-  
ously responsible for most of the wear  
on pistons, rings and cylinder walls.  
The entrance of sand and dust into  
the carburetor air intake can be pre-  
vented by providing a filter of the kind  
shown in the drawing. This method  
has been tried out and found highly  
satisfactory. The space between the  
dash and instrument board was used  
as a filtered air chamber and was  
connected to the carburetor air intake

Air Filter on Carburetor Keeps Grit  
Out of Motor.

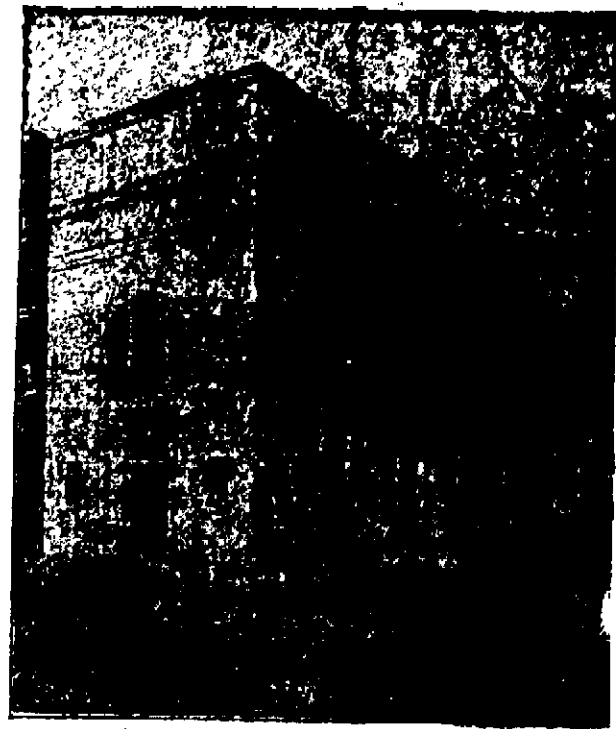

with a length of flexible metal tubing.  
This space was sealed to prevent air  
from coming in except through the  
filter, which was provided in the bot-  
tom. It consisted of several layers  
of closely woven cloth, with a piece of  
wire screen to make the filter more  
rigid. After a day's run a painful  
dust was brushed from the underside  
of the filter. Later, when carbon was  
again burned out, there was no trace  
of any unburned deposit.—It. P. Cole,  
Paterson, N. J., in Popular Mechanics  
Magazine.

## Cooling System in Need of Thorough Cleansing

To give a thorough cleansing to the  
cooling system, disconnect the short  
section of hose between bottom of the  
radiator and pump, connect the garage  
hose to the water pump and a longer  
section of hose to the bottom pipe of  
the radiator and lead it outside of the  
truck. Plug the overflow tube with a  
cork or rubber stopper. Turn on the  
water after starting the engine, and  
it should be pumped through the water  
jacket and radiator till it runs clear.  
If the radiator and water jacket of  
the engine are found to contain con-  
siderable scale or rust, it may be nec-  
essary to flush the system out with a  
solution of hot water and washing  
soda and it may even be desirable to  
allow the washing soda solution to re-  
main in the water system overnight  
to make sure the scale is loosened.—  
Scientific American.

## Jewish University Dedicated

The first Jewish University in Palestine was dedicated recently with impressive ceremonies. Leaders of the Zionist movement throughout the world attended the dedication. The photo shows a general view of the ceremonies at Mount Scopus, Palestine, the Grand Rabbi of Palestine, Dr. Abraham Isaac Kook, delivering the principal address.

COCONUT KING GIVES  
\$2,500,000 FOR HUMANITY

Plans to Train Youths and Start Them  
in Business—Gives to  
Employees.

New York.—Leopold Schepp, known as the "coconut king," has set aside \$2,500,000 of his fortune to carry out philanthropic plans for the "betterment of humanity," it became known here. Part of his fortune will be used to establish a foundation for the benefit of worthy boys of New York, he announced.

Mr. Schepp recently distributed \$22,900 to the employees of his firm. The employees, old and young, received gifts of from \$500 to \$1,000 each. Two years ago he made a similar distribution of \$110,000. He subsequently established a pension system by which the beneficiaries, including servants in his home, receive monthly checks which aggregate thousands of dollars. He plans, by his foundation for the benefit of boys in New York, to launch youths in a life of usefulness, if they prove worthy after a probation of two years. Youths between the ages of thirteen and sixteen years, of whatever creed or nationality, will be eligible. Each will be required to sign a pledge for two years, which will include abstinence from liquor. If the youth lives up to his pledge, he will receive \$200 and be started in any business or calling that he selects. The foundation will be governed by a group of directors.

"I expect to get these boys," said Mr. Schepp, "by writing to the ministers of churches and Sunday school superintendents. It will be an association of endeavorers. They must be of good health, physically and mentally, so as to grow into the best kind of young men. It will be nonsectarian. I hope to set an example for other employers and capitalists who may wish to do something with their surplus money before they die and while they can better judge where it will do most good. I wish that I had started the work long ago."

He said plans for establishment of the foundation now are in the hands of his lawyers.

Second Moving Mountain  
Fills Colorado Highway

Denver, Colo.—The antics of Meeker's moving mountain in Rio Blanca county of western Colorado has led to the revelation that the state has a rival "runaway" peak in the foothills near Golden, according to Charles W. Henderson, mineral geographer of the United States geological survey. Golden is 15 miles west of Denver.

The condition is a common one, Henderson said. He reported that the Golden foothill has been marching steadily eastward for several years, interfering both with a highway and a branch line of the Denver Tramway company. Every few weeks, according to Henderson, crews of workmen are required to shovel off tons of dirt from both the highway and the railroad.

Meantime, the progress of Meeker's "moving mountain" continued uninterrupted. It slipped steadily along almost perceptibly, and in two days moved 100 yards. The slope of the peak is steadily "rolling down" to a less steep inclination, as the tremors on the mountain side shake gravel from the top. The mountain was 2,000 feet high.

Clubs for Women Not  
a Success in London

London.—Clubs for women are not a success in London, and several have gone into bankruptcy, while others saved themselves by amalgamation.

Something more than social amenities are required to keep a club together, and this is exemplified by the flourishing condition of the Ladies' Carlton club, which has an important political atmosphere and is in close touch with the Unionist central office. Another, the Gardens club, is thriving because of its specially interesting lectures by prominent people in the gardening world, its regular garden dinners and well-equipped garden library.

Old Vienna Bell Is Now  
Operated by Electricity

Vienna.—After 50 years of silence, "The growler," the great bell, weighing 21 tons, which hangs in the tower of St. Stephen's church, is again in use.

Ring of the bell was discontinued half a century ago because it was feared the swinging of the huge mass would bring down the tower. An electric striking apparatus which enables it to be sounded without danger, now has been installed.

While the tone of the bell in the vicinity of the church is but a rumble, its notes at a distance of five miles sound clear and musical.

Colored Roads Urged  
to Save Drivers' Eyes

London.—The gray or white surface roads of England, at which the increasing number of automobile drivers are compelled to gaze intently in guiding their speeding cars, are causing a mass of minor eye troubles, according to Arthur Upson in a recent address before the Institute of Opticians.

White roads reflect the harmful actinic rays, and Mr. Upson recommends that road builders mix green coloring matter with their surfacing material.

## Marvelous Voice

The English word stenographer is derived from Stenon, a Greek herald who took part in the siege of Troy, and who, Homer affirmed, had a voice as loud as the crash of a cannon.

## This Is Corset Week

WEAR THE CORSET THAT  
SUITS YOUR FIGURE

You will find it easily if you wear Binner Corsets.  
After all, the main question to be asked about a corset is  
—"Is it suitable for my figure?"

What matters it if soft, little unboned corsets are fashionable, if your figure requires a firmer support?

On the other hand, how can you be expected to grow excited about a corset with a high back that is designed to massage the flesh away from the plump shoulder blades—when there is no flesh there?

"Wear the corset that suits your figure."

Come in and secure the Binner Corset that was expertly fashioned for just your type of figure.

*Binner*

## Bomb Kills 140 in Bulgar Church

One hundred and forty were killed, including twenty women and ten children, and many injured in the explosion of an internal machine placed in the Cathedral of St. King Basil, Sofia, Bulgaria, during the funeral of General Geyorshiff, of King Boris's personal staff, who was killed in the streets of Sofia by Communists shortly after an attack was made upon King Boris himself by a number of men hidden in ambush outside the city. Martial law was proclaimed throughout the country, and all persons traveling on trains were thoroughly searched. Photo shows a general airplane view of the City of Sofia, showing the new cathedral, which was dedicated last September.

## Effects of Fraze

Fraze has different effects, according to the mind it moves with. It makes a wise man mad, but a fool more stupid, turning his mind into a chaos.

## Old Astronomical Map

The oldest map of the heavens is in the National Library at Paris. It was made by the Chinese about 600 B. C. and depicts the positions of 1,400 stars.

Your hands...  
do they endanger  
or protect your health?

A feeling of being cleaner than ever before; the skin pleasantly stimulated, softer, smoother; all skin odor gone; a tinge of pink pulsing just below the surface—these benefits from Lifebuoy Health Soap you see and feel—but a greater follows!

## Health is guarded

In crowded cities, you can't prevent germs from getting on your hands. They multiply in the perspiration and body-waste always collecting in pores. This condition is called pathogenic. Your hands are probably pathogenic right now. Germs are thriving in the pores. They must not pass to nose, mouth or food.

## The danger met

This is how Lifebuoy protects health against the danger of hands. You must have noticed what an astounding amount of dirt Lifebuoy gets off—dirt other soaps don't seem to touch. That is the hidden pathogenic dirt which clogs pores and harbors germs. Lifebuoy floods it all away. Germs go, too.

## The skin lives

How glorious the skin feels then. Suppleness has gone. Pores are awake. The skin lives.

Lifebuoy is the complete toilet soap. Use it for everything—hands, face, bath, shampoo. In its wonderful new cleansers are beauty, the joy of living—and priceless protection.

## Cook PRUNES this way and you'll SERVE THEM OFTEN!

—that is, if you are careful to select delicious SUNSWEET PRUNES—sweet, plump and thin-skinned—the finest fruit from the famous orchards of California, selected and packed by the growers themselves.

Ask your grocer for SUNSWEET CALIFORNIA PRUNES today—sealed in our new, convenient 2 lb. carton—or in bulk, from the regular 25 lb. box. Give them a fair trial—prepared according to the following recipe.

You will be delighted with this most healthful, most economical and finest-flavored of fruit foods.

CALIFORNIA PRUNE AND APRICOT GROWERS ASSOCIATION  
11,319 Grower Members—San Jose, California

## SUNSWEET California PRUNES

### A QUICK WAY TO COOK PRUNES

Wash Sun Sweet Prunes, cover with hot water and allow to soak one hour. Bring to the boiling point in the same water in which they were soaked, cover and cook until tender. Add sugar ten minutes before removing from stove. Allow one tablespoon to one cup of Prunes, measured before soaking or cooking. If a thick syrup is desired, remove Prunes to serving dish when tender, and boil the liquid until it is of the desired consistency. A little orange peel, lemon juice or stick cinnamon improves the flavor for some tastes.

## "Miss America" To Visit Here

Plans have been completed for the visit to this city of Miss Ruth Malcomson, referred to as the most beautiful girl in the United States, and crowned "Miss America" on the occasion of the national beauty revue in Atlantic City. Her personal appearance here will be sponsored by the First Battalion of the 156th Field Artillery, which organization will arrange a reception and dance in her honor to be held in the State Armory in this city, Thursday evening, April 30th, when opportunity will be afforded to meet and greet the famed beauty.

A program appropriate to the appearance of "Miss America" in Kingston will be developed. Miss Malcomson, who is touring America in company with her mother, will be accompanied on the occasion of her visit to this city by the Original Pennsylvania, a noted 8-piece orchestra from "Miss America's" home state, who will play for dancing in the armory.

"Miss America" will fill a rather novel role when she visits Kingston. Famed for her own great beauty, Miss Malcomson has been prevailed upon to act as a judge of the beauty of others, and so she will select the most beautiful young lady who appears on the armory floor on Thursday evening, April 30th. And to the young lady thus honored "Miss America" personally will present a handsome silver loving cup.

Hundreds of beautiful girls from throughout the United States competed with Miss Malcomson for the honor of being chosen "Miss America." The Hudson Valley sent representatives to the national competition staged at Atlantic City. Since gaining the distinction of being called the prettiest girl in the United States, Miss Malcomson has been swamped with offers to enter the "movies," join shows and in other ways exploit her great beauty, but has invariably refused.

## OFFICE CAT By Junius

Don't tell everything you know, you might be asked for an encore.

He: How does my hair look?  
She: Fine—Only there's a crease down the middle of it.

We notice that every spring some doctor or scientist warns us against kissing.

### Pretty Girl.

Before she used cosmetics, her complexion was quite yellow. She used to sit alone at home. And could not get a fellow. Nature, to her, was not grand. She had a right to holler. Till some wise duck invented rouge. Then she "convincing with color."

And there are those who get mad when they see themselves as others see them.

If Prohibition weren't such a joke there wouldn't be so many jokes about it.

Many a man has become a bore without having undergone a course of training for it.

The movies have eliminated all coarseness from their humor. They screen their jokes.

"It is said that paper can be used effectively in keeping a person warm."

"Yes, I remember a 30 day note once kept me in a sweat for a month."

"Where does John go so early every morning?"

"Down to the post office to fill his fountain pen."

"How do you like my new checkered stockings?"

"Very sporty, but I'm afraid the naughty boys will want to play cross word puzzles on them."

"Ah," sighed the father, "It's a girl." "Aw," groaned the jury, "she's a girl."

Last winter was a great winter for cross words and cross chains.

A serene countenance is as likely to be the reflection of a good liver as of a pure and contrite heart.

"A drink of this stuff will straighten you out in no time," remarked the bootlegger to his sick customer.

The coroner's verdict—it did.

A little nonsense now and then is relished by the best of men. In "best" we don't include the bore, who says, "I've heard that joke before."

Political Speaker: "What is it that troubles this country most?" Answer me that!"

Voice from the Audience: "Stattie."

He: Gimme a box of Union Matches.

Ditto: Whadda mean, Union Matches?

He: The kind that will strike anywhere.

All are not cold that shiver!

A woman is old when she begins to wear shoes in which she can be comfortable.

(Copyright, 1925, Office Cat Syndicate, Marion, Ind.)

## COLLECTED THOUGHTS

Genius can take any old town and make it famous.

Men who don't live for money usually live for praise.

Modesty is admirable, but humility can be exasperating.

People always think you ought to do better—drat them!

Criticism always hurts; and there can be too much of it.

No example is so quickly followed as the example of decency.

He who undervalues himself is justly undervalued by others.

There is always a little thrill in looking over a railroad trolley.

A wise man should have money in his head but not in his heart.

Many a man's so-called happy home is happy only when he isn't there.

If one really has a library in his house, why not read in it oftener?

If the good fish still in the sea are wise they will continue to abide there.

Life is an uphill road—if you are lucky enough to be going that direction.

If a man is a woman hater it's a cinch that he had the wrong kind of mother.

Hosts of people writing plays—and yet, not enough. The number of good ones show that.

Opportunity is an angel in disguise that some people suspect of being a gold-brick peddler.

If one lives in a glass house, one may as well be a gossip. All the stones have been thrown.

Don't imagine that because one of the participants in a quarrel is wrong the other is altogether right.

The average man would rather lose \$5 on a horse race than a nickel through a hole in his pocket.

Causes for Divorce

The University of California has taken a step toward correcting the "divorce-evil," by instituting a course of critical analysis of the home.

Miss Mary Burt Messer, formerly of the sociology department of the University of Wisconsin, is director of the course. Miss Messer has been quoted as saying that the troubles of American home life fall into two main categories:

"The belief on the part of the modern young woman that she is indifferent to the ties of love and home," and "the insufficiency of the home itself, its mediocrity and inability to meet the needs of the present-day man, woman and child."

Insects Called "Camels"

There is an insect in the Holy Land known as the "camel." A consignment of "camels" arrived at the London zoo a few weeks ago—males and females.

All arrived alive, which in itself was regarded as remarkable since it is a habit of the females to devour the males. By some Biblical students they, and not the big quadrupeds, are believed to have been referred to in the verse "Ye blind guides which strain at a gnat and swallow a camel."

Famous Boxer Now Tailor

George La Blanche, who in 1899 knocked out Jack Dempsey, the Nonpareil, with the famous pivot punch, and surprised the pugilistic world, has been working in Colusa, Cal., as a tailor, for more than a year. It was not learned until recently that he was the fighting marine of the '80s who was accorded the honors of a champion. He is known in Colusa as George Ferguson, his real name. He is seventy-four now and looks hearty.

German Turn to Song

Steps to double the time devoted to singing lessons in German schools have been taken by the ministry of culture on the theory that music as a part of a general education has been neglected of late. It is proposed to devote at least four hours weekly to singing lessons in both the elementary and high schools instead of one or two hours as at present.

Future Motor Transport

In the United States there are 2,361,374 miles of vehicle roadways, although there are only 261,175 miles of steam railroad tracks and about 47,150 miles for electric railroads. These figures indicate the remarkable opportunities awaiting the development of motor transportation.

Work on Skates

Reporters on a Berlin newspaper have been equipped with skates to speed up their work. When a story "breaks" they are able on a moment's notice to skate out of the office to the scene of the news. The stunt may be adopted in other German newspaper plants, it is said.

Community Basket

Bern has established a "community wastebasket." It takes the form of a large tin receptacle placed in the heart of the public square, where the citizens of Bern will be expected to throw all their trash. The receptacle has a capacity of several hundred tons.

ENRICH YOUR BLOOD.

If you are under weight, have poor blood, no appetite and nervous, start today to build yourself up. What you should be. With Burke's Cod Liver Oil and Iron in tablet form, pleasant to take. Guaranteed by all druggists.

The ever-swelling, nation-wide praise which acclaim the brilliant performance of the new good Maxwell will continue to grow in volume because Maxwell will continue to deserve it.

For this great car not only gives performance results and economy heretofore unknown in its class. It is also one of the most soundly engineered and soundly built cars in America—manufactured completely by the Maxwell organization in the great Maxwell plants.

Its motor combines such features as force feed lubrication and fine balance of reciprocating parts—structural practice before confined to cars costing far more. Its transmission, and its rear axle, are big enough and strong enough, for the most strenuous daily service.

The new good Maxwell owner enjoys his 50 miles per hour, 5 to 25 miles in eight minutes, and 25 miles per gallon in the know-how edge that this great combination is exclusive and distinctive to the new good Maxwell alone.

We are eagerly awaiting the opportunity to prove these good Maxwell results to you.

Trusting Car, Roadster, Club Coupe, Cabriolet, Standard Four-Door Sedan—conveniently priced from \$2495 to \$3495. All prices f.o.b. Detroit, car taxes. We are pleased to attend the client's car of transportation. Ask about Maxwell's attractive plan, Maxwell dealer, and superior Maxwell service everywhere.

## Pie for Sunday Dessert

Sunday at home is a day of comfort and good things to eat.

How much happier the family will be if you make a delicious lemon cream pie for dinner.

Pop's Corn Starch makes desserts easier. Try a lemon cream pie next Sunday.

### CREAM PIE

Disolve 1 heaping tablespoonful of Pop's Corn Starch in a little cold milk and add one cup of boiling milk. Beat together 1 egg, pinch of salt, 2 tablespoons sugar and stir into the boiling milk, taking the milk off the stove and stirring. Place on stove again and let boil until thick and smooth. Add lemon flavor. When cold, pour into a crust. Use only 1 cup of Pop's Corn Starch from your grocery today. It's pure and wholesome.

## 156,893 Perished In Tokyo 'Quake

By Telegraph to The Freeman.  
Tokyo, April 23.—After more than a year of investigation, what is probably the first authentic compilation of the casualties and the loss by earthquakes and fire resulting from the disaster of September 1, 1923, has been made by the Bureau of Statistics of the Tokyo Municipality.

These statistics show that 156,893 persons perished in the earthquake, or were burned to death in the subsequent fire. The total Japanese losses in the Russo-Japanese War were only about 180,000.

The property losses resulting from the disaster amounted to approximately \$2,753,192,017. Of this sum about 66 per cent represents damage suffered by the city of Tokyo. The loss due to the sudden slump in the stock market as a result of the earthquake is estimated at \$116,920,350.

Funds disbursed for earthquake relief amounted to \$42,727,500.

Even the chiffon gown is molded.

(By Eleanor Gunn.)

The molded line is gaining many friends. Gowns now no longer are casual as to fit, but require a good deal of expert talent to give them the correct line—something between snug and loose. It still is a molded line and usually flares at or just above the knee.

The long sleeve carries out the figure-revealing idea, and is therefore in keeping with what fashion aims to express. Long sleeves of the slender, tapering variety are sponsored without reservation in everything but formal gowns; and even in frocks of sports genre they are approved.

Chiffon With Crystal Dew Drops.

Belted and belted ideas that emphasize a narrow hipline are repeated usually in very low effect, and these, too, accent the figure.

Frocks for juniors follow the figure more consistently, for, as always, they get their inspiration from grown-ups. The junior ensemble has a definite place, and even we youngsters have frocks and coats which are in complete accord.

(Copyright, 1923, Fairchild.)

### OUR DAILY PATTERN.

A Neat and Simple Suit for the "Small Boy."

5443. Checked gingham, poplin, serge, flannel and flannel may be used for this model. The smock closes at the right side of the front under a facing or trimming band, as illustrated.

The pattern is cut in 3 sizes: 2, 4 and 6 years. A 4-year size requires 1 1/2 yards of 36 inch material with 1/2 yard of 36 inch contrasting material for collar and facings.

A set of this illustration called to any pattern for the model of the 4-year size, or the 2-year size (children), all suitable items to the dressmaker.

## Triple Cape Effect in Smart New Spring Coat

The triple cape effect is the feature of this clever coat, designed for the debutante. It is in brick color, suede cloth, collared with beige fox.

### How to Detect Natural From Artificial Silk

Useful and beautiful as artificial silks undoubtedly are, one likes to be able to distinguish them from the real silkworm-spun silks, says the Kansas City Star.

You will notice, first of all, as you look at the shimmering lengths of cloth on the silk counter, that the artificial or "finer" silks have a particularly high gloss; that they are, in fact, much more brilliant than real silks are. And artificial silk is not soft to the touch, as genuine silk is, but rather stiff and unyielding.

Then, try wetting a sample of artificial silk in water—you will notice that it has a gelatin-like, sticky feel. Your artificial silk will become weaker, too, when wet, though it will become strong once more when you let it dry.

The final determining test for artificiality in silks is to unravel a thread and see how many filaments it comprises. You readily can detect artificial silk, since one yarn of it will be made up of nearly twenty filaments. If these filaments come apart easily, and do not have the twisted look of a real silk thread, your proof is still more conclusive.

Here's why these differences between real silk and artificial silk exist. The chemist, realizing that silk is the most expensive and luxurious of all textile fibers, has attempted to reproduce it in the laboratory by manufacturing a substance something like the natural silk coming from the magic little spinning wheel of the silkworm. And he has hit upon cellulose as being the best basis for a successful substitute for that substance. He gets the cellulose from cotton waste or from the pulp of the spruce tree.

Having managed to concoct a satisfactory substance, the next step of the chemist is to force that substance through small tubes, which correspond to the openings through which the silkworm sends its silken filaments. He uses delicate tubes, either of glass or platinum, for the purpose; and he arranges for the ends of the tubes to be placed in water in which there is ammonium sulphide or ammonium chloride. This water hardens the thread-like material as it comes through the tubes. The fine filaments are then wound into threads, and twisted onto spools.

The artificially made filaments are exceedingly delicate, but, though there are usually seventeen of them to each thread, they have nothing of the fineness of real silk—and that's the chief reason for the difference you notice between natural and artificial silk, as you see it in the store.

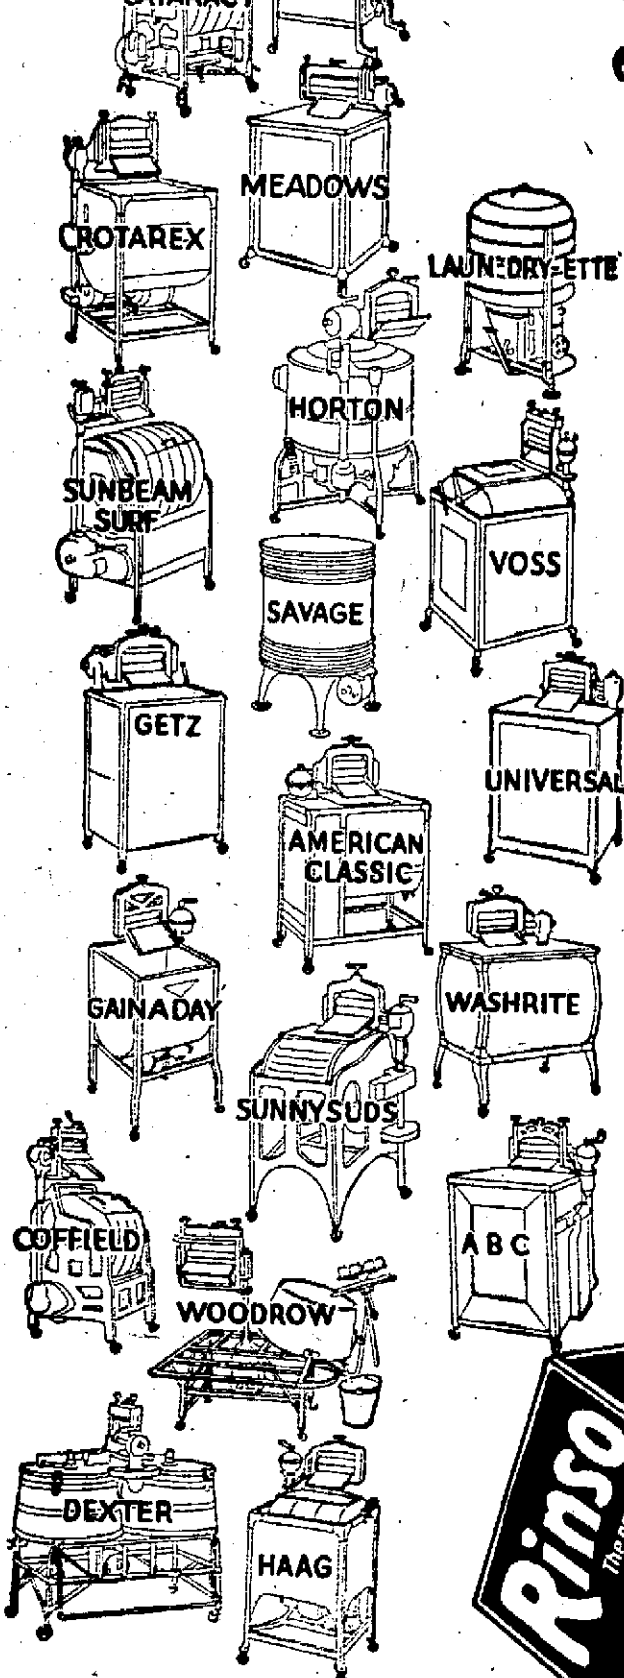

### Belt of Suede and Set of Bracelets to Match

Fashion in women's belts shows an insistent trend toward colored suede, resulting in more varieties of color than have hitherto been shown. There are all the shades to match the flannels which are now so popular and there are a number of shades for them and the lighter summer fabrics. The browns lead at present, particularly that light shade of grayish tan which matches natural kasha cloth. Many new models are being shown, including some unusual novelties based on French design. One favorite style is a set, consisting of an inch and a half belt of suede finished along each edge with a narrow banding of steel, and a set of leather bracelets to match. These bracelets are worn over long sleeves with a slight fluting gathered in at the wrist. There is an abundant use of metal trimmings this spring applied in such fashion as not to interfere with the belt's flexibility. Other popular styles show patent leather stretched over suede and a suede belt with a buckle covered with Roman striped ribbon. Belts of moderate width are favored, the range advancing from an inch and a half to three inches.

### ZENA.

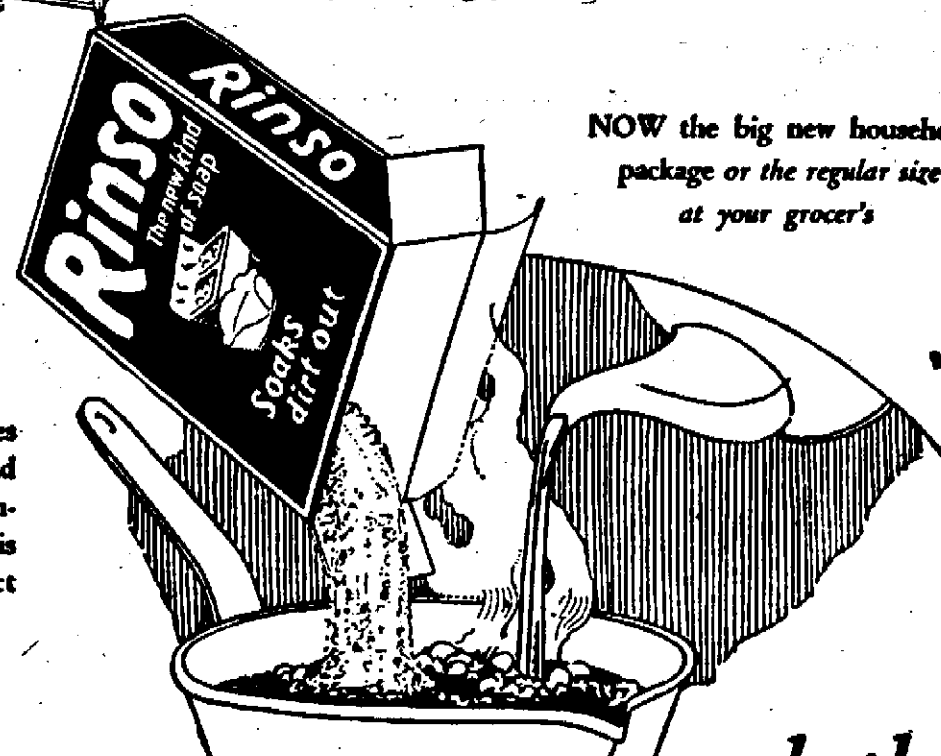

Zena, April 22.—The shadow party and salad supper of the Zena Country Club held on April 15th, at the home of Mr. and Mrs. Herbert of Zena, was a wonderful success both financially and socially. The committee in charge deserve considerable congratulations.

# 22 leading makers of washing machines say "USE RINSO"

Over 3,500 of the foremost stores where washing machines are sold use Rinso whenever they demonstrate a machine. They do this because Rinso insures perfect washing conditions.

HELLMANN'S BLUE RIBBON Mayonnaise

credit, and wish to extend the heartfelt appreciation of the entire club to all those who helped to make the evening one to be remembered. It is hoped that many of the new made friends will be at the next meeting at the home of Mr. and Mrs. Harry Oats of Zena on Friday evening, May 1st. After a short business meeting there will be progressive pinocle, canasta with many prizes and dancing and music for those who do not play cards. The usual dainty refreshments will be served about midnight.

On Friday evening, April 17, the Zena Country Club turned out large and hilarious to a swimming, showered upon the newly wedded members, Mr. and Mrs. Eugene Hugg of Zena. The bride was formerly Miss Rae Dolan of Kingston. The evening was enjoyed by all and refreshments were served by the committee. All of their friends of Zena and Woodstock and their friends were invited to extend their sincere congratulations.

### The Flavor is Roasted In!

THERE'S no use trying to make good coffee if your coffee has lost its flavor. The flavor of White House Coffee is roasted in. This means that the delicate coffee aroma, which often escapes during roasting, is preserved—full and fragrant—for your table.

The White House roasting process, perfected through 75 years, enables you to make good coffee always. Don't accept a substitute. If you want to serve coffee that is coffee, insist on White House Coffee with the flavor roasted in.

## Y. W. C. A. Ends Season's Suppers

The last of the season's Y. W. C. A. Wednesday night suppers which was held at the Y. W. Wednesday evening was very largely attended and proved a fine wind-up of the season. The supper was good and everybody was happy in spite of Miss Daley's announcement that the splendid opportunity of purchasing the Staples property had to be foregone because it was too big a financial burden either for the Y. W. to assume or to ask the citizens of Kingston to assume this year.

The speaker of the evening was Everett Fowler, who expressed himself as hoping that in spite of this decision of the Y. W. trustees and directors it would not be long before the Kingston Y. W. C. A. would be able to have its own home. He was of the opinion that the women of Kingston could have pretty nearly what they want once they start out after it. His further announcement that Fowler and Decker would give a subscription of \$100 toward the coming campaign to raise the year's budget for the Y. W. was most enthusiastically received. Mr. Fowler then talked very interestingly of Old Kingston.

### Young People's Synagogue.

The services of the Young People's Synagogue will be held as usual Friday evening at the Agudath Achim Congregation at 8 o'clock. There will be speaking and singing. All are welcome.

## MIZPAH CLASS TO GIVE PLAY AT ASHOKAN

The ladies of Mizpah Sunday school class of the Clinton Avenue M. E. Church will journey to Ashokan on Friday evening and give their popular play, "Listen Ladies, or the Bachelor's Legacy." The following is the cast of characters:

Mrs. Holden, President of the Sewing Society. Mrs. K. E. Wright  
Mrs. Brown, who wishes to be president. Mrs. J. B. Schepmoor  
Mrs. Bacon, on the apron committee. Mrs. George Miller  
Mrs. Whitney, also on the apron committee. Mrs. O. Ostrander  
Mrs. Harvey, who would rather read than sew. Mrs. Ina Watson  
Mrs. Crane, who keeps a cow and hens. Mrs. J. Dougherty  
Mrs. Green, a very observing neighbor. Mrs. W. Beadle  
Mrs. McLean, Julia King, sisters who are very apprehensive. Mrs. J. Goff, Mrs. B. Weeks  
Katie, a servant. Mrs. E. Hapley

Musical numbers will be interspersed between the acts. The play will be given in the Methodist Hall at Ashokan at 8 o'clock.

## DISTINGUISHED RABBI TO SPEAK FRIDAY

On Friday Kingston Jewry will be greatly honored by the visit to this city of the most celebrated Orthodox rabbi of this generation, Rabbi Jacob Joseph Hurvitz of Pittsburgh, Pa. He comes here on a visit to his children, Dr. and Mrs. Ezekiel Leavitt and Attorney Nathan N. Hurvitz, Rabbi Hurvitz, who held many im-

portant rabbinical positions in many great European centers, is widely known as a deep scholar, an erudit, a Talmudist, a great exponent of the Jewish law, and a fine speaker. He came to the United States about 14 years ago, and until recently he was the chief rabbi of Massachusetts, from where he was requested to come to Pittsburgh, Pa., to take charge of the rich and largest congregation in the city.

While in Kingston, Rabbi Hurvitz will occupy the pulpit of his son-in-law, Dr. Ezekiel Leavitt, the rabbi of this city. The Jews of Kingston are ready to tender him a hearty reception.

## Minerals of Spain

Spain possesses a greater variety of minerals in large deposits than any other country on the European continent.

## Sewer Cleaner Proves Success

The sewer cleaning machine recently purchased by the board of public works at a cost of about \$1,000 has been received and has been used successfully by Superintendent W. Scott Van Keuren in cleaning the sewers on Foxhall and Clinton avenues and on Green street. Today the cleaner was being used to clean the Wurts street hill sewer.

The machine, according to Superintendent Van Keuren, takes more stuff out of a sewer in one day than four men could clean out in four weeks. The machine he considers a valuable time and money saver.

The machine works on a windlass, and a hose goes through the sewer to be cleaned to which is attached a knife which cuts the roots and other obstructions in the sewer while the water flushes the matter out.

## Nick, 515, Weds 160 Pound Bride

By Telegraph to The Freeman. Providence, R. I., April 23.—"Nick is just wonderful—and you know he owns his own restaurant so I don't have to worry about cooking," remarked Mrs. Nicola Tartaglione, 160 pound bride of 515 pound Nicola Tartaglione today.

She was seated opposite her bridegroom and his eight children by a former marriage.

"Married life is great," exclaimed Nick, as he finished off his usual breakfast of 18 eggs, four rashers of bacon and a loaf of bread. This piece of resistance was accompanied by a gallon of coffee.

The bridegroom, who is 45 years old, holds all New England records for size and appetite.

## New Ambassador Reaches England

By Telegraph to The Freeman. Plymouth, England, April 2.—Alanson B. Houghton, new ambassador to the court of St. James, stepped from the deck of the liner George Washington into the arms of a warm welcome here today.

He was greeted by Lord Astor, the mayor of Plymouth, American Charge d'Affaires Sterling and many embassy officials.

"The warmth of joyous welcome at the very threshold of England makes me feel I am in the home of friends," the new ambassador declared.

He declined to discuss international affairs, but specifically denied he had brought with him a plan for a second disarmament conference.

## KENTUCKY CAVE GIVES UP COLLINS'S BODY

By Telegraph to The Freeman. Cave City, Ky., April 23.—The body of Floyd Collins, trapped in an underground cavern at Sand Cave for the past two months, was brought to the surface this morning and taken here.

The body was in fairly good condition, due to the low temperature in the cave.

After embalming the body will lie in state and will then be given the burial wished for by Collins's family.

Miners employed by the Collins family extricated the body from the grip of a 100 pound rock that held it at the bottom of a seventy foot shaft.

## SHOKAN.

Shokan, April 22.—The regular Monday evening dance will be held as usual in Winchell's Hall. The young and old folks continue to come together and spend a pleasant evening.

Miss E. Longyear has returned home after spending several months in New York.

Mrs. Anna Avery is quite ill. Her friends hope she will soon be well, and strong again.

Mr. and Mrs. Kenney of Brooklyn are spending a few days with Sam Allen.

The Ladies' Aid met one day recently in the basement of the Reformed Church and spent a very busy day.

Bill Perzomous is still ill in bed, having made but slight improvement during the past week.

Many were the admirers of Mrs. E. Bodell's beautiful display of spring flowers in the garden in the back of her home.

There will be a sample social held in the basement of the Reformed Church, Friday, May 1st. Ladies furnish a sample of material (preferably of the dress they wear) enclosed in envelope. Gents pay cost; which enables them and partner to refreshments.

## Disagree on Dry Power of Police

By Telegraph to The Freeman. Albany, N. Y., April 23.—"Any corporation counsel who makes such a ruling is not fit to hold his office." So declared Governor Smith today in commenting on the ruling by Corporation Counsel Frank J. Clegg of Syracuse, that the city police have no right to make raids for violation of the Federal liquor laws, with or without warrants.

"The ruling by the Syracuse corporation counsel is the most absurd I have heard in a long time," the governor added.

## Vicious Bull Kills Farmer

By Telegraph to The Freeman. Binghamton, N. Y., April 23.—Clarence Boursier, a farmer living near North Fenton, 10 miles north of here, was killed today when he was attacked by a bull at his home. Relatives here, who were summoned to the farm, said that he had been warned that the animal was vicious and advised to dispose of him. Boursier had declared that he was not afraid of the animal.

## Criminal Drive by Federal Forces

Merger Planned of All Federal Law Enforcing Agencies, to Erect Impassable Barrier on Border Lines.

By Telegraph to The Freeman. Washington, April 23.—The greatest criminal drive in the history of the government is planned by the Coolidge administration through practical merger of all Federal law enforcing agencies. International News Service learned today.

Every crime detecting branch of the government would be called in to the drive and their combined ranks thrown against rum runners, dope peddlers and alien smugglers. If a program drafted at the treasury department is adopted, the chief objective would be to erect an impassable barrier on all American border lines.

To perfect this gigantic Federal crusade against crime, Assistant Secretary of the Treasury Andrews has called a conference for tomorrow.

Under the present system of border protection there is an absence of centralization of effort and a general conflict of authority among the various agencies, an official investigation disclosed.

## Outsiders

You can't kiss a girl unceremoniously. The best you can do is to kiss her sweeter than she thought you would.—Colorado Dude.

## Famous Battles Re-enacted

Battles of Lexington and Concord, the first of the Revolutionary War, which took place April 18, 1775, were re-enacted at the one hundred and fiftieth anniversary of these historic conflicts on the same spots when modern Minute Men, garbed in Revolutionary uniforms, retold the old story. Photo was taken at the Concord bridge when the 1915 Minute Men fired their shot at the "Britishers." Preceding the battle, there was a parade of the modern Minute Men in Concord.

## New Safety First at Sea Radio

Photo shows Deane Castagnard on the steamship to the bridge of the S. S. Orion to lower gun—used the Orion's radio-equipped lifeline to the water. This lifeline is the first of its kind and is a new departure in safety first on sea. There is a specially trained crew to operate the portable radio which, in case of accident to the steamship, would be able to maintain communication with rescue ship.

## Fertile Spots

"A great many manufacturers would undoubtedly find that by limiting their efforts to more circumscribed areas and intensifying their sales activities in such areas they would not only reduce their selling costs but would probably produce a larger volume of business."

HERBERT HOOVER,  
U. S. Secretary of Commerce.

National advertisers should study markets rather than the map.

Picking the fertile spots is the way to cut selling costs and to increase sales.

Find the right markets and then advertise in the newspapers in those markets.

That is the modern way—to make advertising produce definite results at the points where sales opportunities are best.

Write the Bureau of Advertising, American Newspaper Publishers' Association, 270 Madison Avenue, New York City, for a copy of "The Right Way to Use Newspaper Space."

## 50,000 Boys Will Attend US Camps

Some of the Largest Firms in the Country Will Send Employees and Pay Salaries in Full.

By Telegram to The Freeman.

New York, April 23.—What the well dressed young man will wear this summer:

Woolen olive drab shirt. Cotton or serge olive drab riding breeches. Wrapped woolen leggings. High tan laced shoes. Wide brimmed olive drab hat, peaked.

Perhaps not every young man in the United States will be so clothed during the months of July and August, but at least 50,000 youths between the ages of 17 and 31 years will wear just that uniform for the thirty days while attending the forty-two Citizens' Military Training Camps to be held again this year under the auspices of the war department.

Figures made public in Washington today showed that 25 per cent of more than 13,000 youths have already enrolled for the free-health and citizenship encampments, more than double the number of enrollments at this time last year.

The enrollment campaign is under the direction of the Citizens' Military Training Camps officers at the headquarters of the nine Corps Areas into which the nation is divided by the war department for tactical and administrative purposes. In the Sixth Corps Area, including the states of Illinois, Michigan and Wisconsin, already one-half of the quota of 5,500 has been obtained; 38 per cent have enrolled in the Fifth Corps Area, comprising Ohio, Indiana, Kentucky and West Virginia and 36 per cent in the Fourth Corps Area, including all of the southeastern states, less Virginia.

### Expenses Paid.

What President Coolidge himself and leaders in congress and in civilian life consider one of the greatest movements for real democracy ever instituted in America will get under way in many camps early in July, while other camps open August 1. Plattsburg, New York, will have two camps, one in July and one in August.

The necessary expenses of the boy are paid in full by the government from the time he leaves his home, with railroad fare to and from camp, clothing, equipment, food, lodging, bedding and entertainment.

According to reports made available at the war department recently, enrollment for the 1925 camps has been made comparatively easy by a new factor. Already ninety-five of the biggest industries in the nation have guaranteed to send at least 2 per cent of their employees to the camps for thirty days on full pay, as rewards for faithful performance of their duties during the year.

### Send Boys.

Among them are the following: American Telephone and Telegraph Company, American Railway Express Company, Baltimore & Ohio Railroad, DuPont Powder Company, Eastman Kodak Company, General Electric Company, J. P. Morgan & Company, New York Stock Exchange, Pennsylvania Railroad, Radio Corporation of America, Standard Oil Company, United States Steel Corporation, Western Electric Company, Western Union Telegraph Company and the Westinghouse Electric and Manufacturing Company.

The selective draft of 1917 and 1918 revealed that almost half of the young men in America were either defective or unfit for fighting. Out of 2,750,000 young men examined, 46.8 per cent could not pass the physical test for front line soldiers.

The youth of today, medical statistics show, is no better, physically, than was his soldier brother in 1917, but the work of the physical culture experts and doctors at the camp remedies these defects which are not organic. The camps form a vast, free public health clinic at which these 50,000 youths are examined and treated by experts and given thirty days of health and muscle-building exercises, which last year had an average of six pounds in weight per man to every one of the 1,000 in attendance. Spine curvature, flat feet, malnutrition, faulty posture, flat chests—all of these defects disappeared in a majority of cases following thirty days in the open.

### ROSENDALE.

Rosendale, April 23.—A number of real estate sales have been made in the village. Residents here are glad to extend the hand of welcome to the newcomers.

Mrs. Mary Roentgen and son, Howard, who had been attending the funeral of her brother, Exbert Brooks, at Allentown, called on friends here, who were glad to see her.

The sympathy of the community is with Miss Grace Cannon and family in the death of their mother, Mrs. Cannon was much respected and one of the few old time residents of Rosendale.

A lot of changes have been made by carpenters and builders, summer homes being put in readiness for guests.

Mrs. Nymph and Bush are doing their best attendance to the sick folks hereabout. All are glad to report Mrs. Pearl, Mr. Weiss, Mrs. Ruten, Mrs. Hagen, Mrs. Christiana and Arthur Weiss improving.

A food demonstration for the Home Bureau will be held in the Baptist Church lecture rooms on Friday, April 24, at 2 o'clock, by Mrs. Herbert Snyder. All welcome.

### Petrifying Animals

A New York chemist has evolved a solution which, it is claimed, will petrify insects, birds and fish in their natural colors. By dipping the creatures into the chemical solution it is said they become hard as though petrified and in that state are immune to decay and need not be kept in liquid while on display.

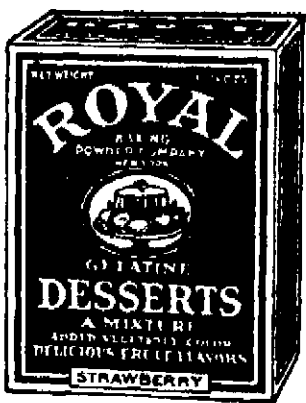

Pure gelatine is odorless—

## "Y" President Talks to Hi-Y

Wednesday evening, a regular meeting of the Hi-Y Club was held at the Y. M. C. A. As a special feature "The Kingston Collegians," an orchestra of six pieces, rendered several selections. Mr. Ramsey, president of the Kingston Y. M. C. A., was speaker of the evening. After a short speech, in which he stated among other things, that the Kingston Y. M. C. A. was proud to have such an organization as the Hi-Y Club holding its weekly meetings at the Y. M. C. A. Mr. Ramsey then installed the officers for the coming year. The officers are: Addison Schultz, president; Fred Clark, vice-president; Victor Johnson, secretary and treasurer. The regular basketball games were postponed because several of the players were absent.

"THEY ARE WEARING"—  
Reg. U. S. Pat. Off.

The rogue for fuchsia was strikingly portrayed at one of the smart New York clubs at luncheon the other day, when at the most prominent table were seated two women gowned in this color. One wore an ensemble of fuchsia satin, topped by a matching hat, while the dress of the other was of this tone in crepe followed out by the lining of her sable wrap.

Just a touch of color in a black costume is affected by smart women, a large purple chrysanthemum being worn on the coat lapel, in one instance, and a small bouquet of blue flowers matched by the purse in another.

Various fancies in swirls, made of bi-color ribbon or feathers are seen on matron's hats, posed at the sides.

Very light-colored fish trimmed several black coats seen on Fifth avenue recently.

Allover embroidered coats seem to be gaining in popularity. At least six were worn on Fifth avenue one day this week, with varying patterns. The tapestry idea in subdued colorings, usually with greens and browns is noteworthy, but others are developed in many fine cloth with scattered motifs of flowers in ray tones.

Silver pants buttons trimmed a navy blue ensemble, appearing in rows at the center of the skirt from the knee and also half way down the back from the neckline.

Small fur animal scarf are being worn, sable, stone marten or fisher.

A black satin hat with a section crown was trimmed with a two-inch band embroidered in gold palmettes.

Many versions of the Rebozo hat with appliqued points of black velvet are seen, usually in black and combined with straw or felt.

**BIPLANE CARRIES TWO  
BABY GRAND PIANOS**

By Telegraph to The Freeman.  
Washington, April 23.—With two baby grand pianos aboard and six men, the giant Sikorsky biplane which left the Roosevelt Flying Field on Long Island today, arrived at Bolling Field here at 11:55 a. m., making the trip in three hours. The plane was piloted by Igor Sikorsky, the inventor.  
Home Bureau at Kyrleke.  
On Friday, April 24, local leaders in the military project of the Ulster County Home Bureau members at Kyrleke and Allgerville will conduct the last lesson of the series, which will be on flower making and trimmings. This will be a very interesting lesson. The meeting will be held at the home of Mrs. Henry Neff at 1:30 p. m., and members are requested to bring with them any scraps of silk or ribbon which they may have on hand.  
Divorce Decree Granted.  
An interlocutory decree of divorce has been granted plaintiff by Judge A. H. F. Seeger of Newburgh in the action brought for an absolute divorce by Claude Ashley against Edna H. Ashley. The parties were married December 17, 1918, in Shandaken. Brincker and Canfield are attorneys for the plaintiff.

**St. James Men's Club**

The St. James Men's Club will meet Monday evening, April 23, at 8 o'clock in the St. James parlor, Fair street. The Rev. O. B. Smith, superintendent of the Kingston district, will be the speaker. Members are requested to bring friends. Good music, good fellowship. Refreshments served.  
DIED.  
In kind and loving memory of Martin Stahl, who died April 22, 1924.  
We miss thee from our home, dear father.  
We miss thee from thy place.  
A shadow o'er our life is cast.  
We miss the sunshine of thy face.  
We miss thy kind and willing hand.  
Thy hand and earnest care.  
Our home is dark without thee.  
We miss thee everywhere.  
WIFE AND CHILDREN.

**Financial  
and Commercial**

By Telegraph to The Freeman.  
New York, April 23.—The stock market was dull and irregular today. Failing in their efforts to depress prices of the motor and industrial stocks, professional traders started a covering movement which stiffened prices in some parts of the list while others were moving to lower price levels.  
The steady advance of sterling exchange, which reached 4.80 3/16, the highest point on the recovery, was one of the most important features of the financial situation.  
Grains were lower and cotton declined as the result of rain. Metal prices were a little stronger.  
Maxwell reached 81 on the rebound from yesterday's low price of 71 1/2. Mack Trucks was about 2 points higher. Studebaker rose above 46 and General Motors held around 74.  
The advance of International Nickel to a new high at 39, overshadowed favorable dividend action. Consolidated Gas reached 79 1/2, demand being due to the favorable effects of the decision of the federal court, declaring the one dollar gas law unconstitutional.  
American Sumatra failed to recover much of its lost ground, its low price of 7 today comparing with February's high at 24 1/2.  
Independent Steel stocks continued to advance, under the leadership of Gulf States. Bethlehem and Crucible were in fair demand, while U. S. Steel sold down to 111 for a loss of more than a point. After the noon hour the market was unusually dull, with prices inclined to slightly lower levels.

**Sudden Death of  
Dr. Groginsky**

Dr. P. H. Groginsky, of Woodridge and Fallsburgh, Sullivan county, a leading druggist and physician with a large practice, died Wednesday evening at the Hotel Stuyvesant, from acute indigestion. The doctor and Mrs. Groginsky had been stopping at the hotel and while walking about Wall street stopped at the Advance restaurant for a lunch. While there Dr. Groginsky feeling ill requested a physician be called and that he be taken to the Hotel Stuyvesant where he was done. Dr. E. H. Loughran gave treatment which relieved the patient, but about an hour later Dr. Groginsky died. The remains were placed in charge of A. Carr & Son, undertakers on Pearl street.

**FAMOUS FORTS  
IN U. S. HISTORY**

By ELMO SCOTT WATSON

**A Fort That Once Was a  
Territorial Capital**

Among the military posts established by the federal government, Fort Whipple in Arizona is one of the few that can boast of having been a center of civil as well as military government and that it once served the state in which it stands as a territorial capital. It was built in 1863 near Granite creek by Maj. E. B. Willis of Col. James H. Carleton's famous "California column" and it was established there to help hold the southwest for the Union after Carleton had driven the Confederates out. It was named in honor of Brig. Gen. Amiel Weeks Whipple, who in his youthful military career had explored a part of the wilderness of Arizona before the Civil war and who lost his life at the battle of Chancellorsville. In January, 1864, John N. Goodwin, governor of the newly-created territory of Arizona, arrived at Fort Whipple and immediately designated it as the temporary capital. In May the fort was moved about 20 miles southwest to its present location and by July there had sprung up near it a thriving little town which was named Prescott in honor of the distinguished historian. During the following years there was a spirited rivalry between Prescott and Tucson for the honor of being capital of Arizona. Eventually both lost out to Phoenix, but for a long time Prescott seemed to have the better claim, partly because of its nearness to Fort Whipple, the center of military affairs in the territory.  
In 1880 Fort Whipple was made headquarters of the military department of Arizona and Southern California and there in 1872 came Gen. George Crook to subdue the hostile Apaches who had terrorized the southwest from the days of the earliest white occupancy. Fort Whipple at that time was described by one of Crook's officers as "a ramshackle, tumble-down palisade of unburned pine logs hewn from the adjacent forest slopes, which was supposed to command something—exactly what it is not known for it was so dilapidated that every time the wind blew were afraid it was doomed."  
Unimpressive as the old fort was, however, it deserves a place in history if for no other reason than that it was the base of operations of Crook's campaigns against the Apaches, as brilliant an achievement as any in the annals of the American army, which brought a greater period of peace to the harried border than it had known for centuries. Today Fort Whipple is only one of a number of ruins, which the war department maintains in the west, whose glory lies in the past when the red man made the war trail across the wilderness.  
(Copyright, 1924, Western Newspaper Union.)

**PORT EWEN.**

Port Ewen, April 23.—Mrs. Melissa Bollus of New York city is visiting Mr. and Mrs. Andrew M. Taylor on Green street.  
Several from here attended the meeting of the Parent-Teacher Association held at Kingston High School Tuesday evening.  
An auction of household goods of all kinds will be held at the residence of Mrs. S. C. Oughelrose on Broadway on Tuesday, April 28 at 2 o'clock.  
LeGrand Doyle and Sons, painters and decorators, are painting the residence of Mrs. Jasper Hutchings. Mr. and Mrs. Claude Potter and family have moved into their new house on Stout avenue.  
Several members of Hope Temple, No. 50, Pythian Sisters, paid a fraternal visit to A. W. Reynolds Temple, Kingston, on Wednesday evening.  
Mr. and Mrs. Elling Ellsworth and family of Main street will soon move to Long Island, where Mr. Ellsworth has secured a position as telegraph operator.  
Grover's Soft Shoes, Ties and Pumps for tender feet at C. S. Wood's.—Advertisement.

**BUSINESS NOTICES**

Hugh Kravitz, painter, 43 Elm Street. Phone 1202.  
Upholstering in all of its branches. Mattresses made over. Reducing cases, rush, and porch seats put in, promptly and neatly, at 73 West Union street, by S. T. Quinn. Phone 313-R.

**WDBZ Scored  
Another Hit**

The program broadcast Wednesday evening set a new record in so far as variety of entertainment was concerned and as it was all of a first class, it would be impossible to pick out any particular artist as featuring the evening's entertainment.  
The junior period proved very popular among the listeners in and will be continued as long as the station can find entertainment among the younger folks.  
This was followed by the scout period which is going to be popular with the Scouts. The feature was the singing of Arthur Byrne a scout of Troop 4, connected with St. Joseph's Church, who was accompanied by the popular musician and teacher, Mrs. William Rieser.  
Then the real surprise came after the regular hour when the station, through the courtesy of the Keeney Theatre, put on Jimmy Connors and his Jazz Orchestra and that delightful little lady who is singing with them, Miss Nell Roy. Mr. Roberts of the Keeney Theatre has promised that Jimmy Connors and his entertainers, who owing to their popularity, will be here for another week, will again appear at this station and Mr. Connors has promised to play some of the request numbers asked for Wednesday evening. It was a splendid evening's entertainment and next week it is believed that radio fans will feel the same, so get set for a good program of real music on April 25th.

**Shiels to Rebuild  
At Lackawack**

James D. Shiels, who is well known to many Kingston and Ulster county people, has sold the Orange Inn at Goshen, which he has been conducting for the past three or four years. Mr. Shiels, who owned a large hotel at Lackawack, a favorite dining place for years and which was destroyed by fire, intends having built on the old site at Lackawack a modern hotel, work to begin about May 1.

**To Let Contract  
For New Bridge**

Bids for construction of Anchorage and Approach of Poughkeepsie-Highland Bridge to be let May 21—Estimate is \$450,000.

Announcement was made Wednesday at the office of Colonel Frederick Stuart Greene, state superintendent of public works, at Albany, that official advertisement has been authorized for the letting to be held Thursday, May 21, at 1 p. m., daylight saving time, of Contract No. 2, calling for the construction of the east and west anchorages and the eastern approach to the new Poughkeepsie-Highland bridge. Engineers' estimates on the work are approximately \$450,000.

**About the Folks**

William H. Longyear who spent the winter at St. Augustine, Florida, has returned to his home on John street.  
Miss Helen Coons, 194 Downs street, has resigned her position with the Van Kleek Motor Co., North Front street.  
Levan Haver of Green street, who was operated on by Dr. O'Meara for appendicitis, is convalescing at the Benedictine Hospital.  
Thomas Murray, who was injured several days ago by falling from a step-ladder, is improving nicely at his home on Abel street.

**Odds and Ends**

The Service Club of the Fair Street Reformed Church will meet at the home of Mrs. Walter Weeks, 39 Farnace street, on Friday afternoon, at 2:30 o'clock.  
Bloomington Property Sold.  
The six room dwelling in the village of Bloomington owned by Peter Rusky and wife of White Plains, N. Y., has been sold by Frank S. Hyatt of the Ulster Realty Agency to Peter Muller of Brooklyn, N. Y. Mr. Muller has already taken possession of his new home and will make considerable improvements.

**Low Angeles Starts Homebound.**

By Telegram to The Freeman.  
Hamilton, Bermuda, April 23.—The U. S. Fishable ship Low Angeles left its moorings here at 9:40 this morning, sailed over the island and headed north at 10 a. m. on its way back to Lakehurst, N. J.

**Scenes in Conjunction**

The scenes are said, and they are truly said, to have a mutual connection, that any one of them may be better understood for an insight into the rest.

**Investing  
Money**

THE investment of money, especially in the case of those buying bonds or stocks for the first time, requires careful study of individual requirements as well as security conditions.  
We offer an advisory service to small as well as large investors.

## Rice Drove Car That Hit Boy

(Continued From Page One)

case and had received a call from headquarters stating that there was an accident on Hurley avenue. He went to the scene. He reported that a boy had been hit and that it was said a small boy was operating the car. They went to headquarters and found the chief and Mr. Rice there. He reported to the chief and told him that it was said a small boy had been driving the car. It was then the chief called Mr. Rice in his private office and questioned him. Mr. Rice said that the boy was behind the wheel but he had his hand on the wheel. He said he was teaching the boy to drive and allowed him to take the wheel at times. Mr. Rice said that after the boy had been hit he became confused and went further than he should have before he stopped the car. No one was given for leaving the pavement and hitting the boy.

The sergeant said he went to the scene of the accident. It was about 65 feet north of Snyder avenue. He was present when the pictures were taken. He went up about 6 o'clock. He saw the tracks of the car and it was while there that the spike was driven in the ground where the car left the pavement. He followed the tracks to the spot where the car stopped. His testimony in regard to the details was about the same as the previous witnesses. He said he had noticed the fence post and that at the city hall a piece of the post which was missing was found under the radiator of the Rice car where it was jammed fast. It was discovered by Officer Burger.

### Sister Told Same Story.

The sergeant said he had interviewed several people at the scene including the little sister of the boy. Her story that day immediately after the accident was the same as told on the stand at the inquest.

His testimony as to distances, etc. were about the same as the other witnesses.

Sergeant Phinney said that the little girl had not indicated on the photograph placed in evidence the same spot which she had pointed out to him the day of the accident as the spot where it had happened. He found silvers of the car at the point she indicated. The remains of the car were near the place where the silvers were found and where she had indicated the spot of blood on the pavement near the curb line was very visible when he visited the scene. The car had been placed where Nellie said it had been and where her brother lay after the accident. The photograph had then been made. He was also present next day when Mr. Loughran made his measurements for the map. He pointed out spots to Mr. Loughran as they had been indicated the day before.

### Position of Blood Spots.

L. E. Dunn of 206 Hurley avenue said he was in front of his place

working when the accident happened. He heard shouting and at first paid little attention. Then he heard women scream and he went down the street to the point he saw Slater covered with blood and asked him if he had struck the child. He said he had not, someone else had hit the boy. The boy was in the car at the time he arrived. The man was then in the front seat and the little boy was seated in the rear seat holding the injured boy. The women were gone at that time. He went over past where the accident happened and saw the blood spots and cart. He identified the remains of the cart. The cart was by the blood spots. The blood spots were midway between the pavement and the curb. The spots were below the lane which led to the Slater house.

The Slater lane runs past the house about five or six feet and down to the pavement. It is a driveway to the house.

### Woman Offered to Help.

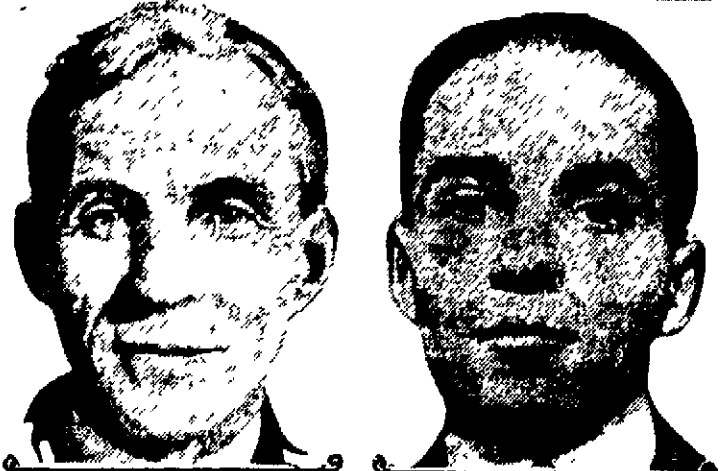

Mr. Dunn said he did not notice tracks of the wheels. Mr. Rice seemed to be nervous and every time he tried to back up his car he went ahead. He said he did not know Mr. Rice. He asked why someone did not get in the car and take the boy and get him to a hospital and a woman stepped up and offered to get in. She did get in and Mr. Dunn asked if they knew the way to the hospital and the man at the wheel nodded that he did. They then left for the hospital with the boy. They backed down to Hurley avenue and started off.

### Saw Something Fly In Air.

Claude C. Donohue, who resides on Washington avenue, was called. He was in his car proceeding toward Kingston a short distance behind the Rice car. He was not driving his car but was in the front seat at the time. He saw the Rice car. It was a Hudson coupe. He saw the car suddenly leave the road to the right and saw a cloud of dust. He saw something fly up in the air but could not see what it was. He knew something had been hit. His car followed and saw the child lying on the side of the road with the wagon nearby. The car was on Snyder avenue. He saw the tracks through the field. He did not see the child before he was hit. He saw the car hit something but could not see what it was. The car had left the pavement about the length of the car when he saw that it hit something. After the car turned from a straight line it was the length of the car before he saw the object fly. He saw the roadway up along the Slater house. The cloud of dust was made about the same time the object was struck. The dust came when the car went up the slope to the side of the road. The object which he saw fly was struck after the car had left the pavement. The car was going slower than 25 miles an hour. Donohue was driving along about 25 and his car was gaining on the Rice car. William Van Kleeck was driving the Donohue car.

Mr. Donohue was positive that the

## Chief Figures in News of the Day

Now Sir Brodrick Hartwell, titled English rum runner, who has been financing his rum running by paying subscribers 20 per cent profit in 60 days, has admitted that the activity of the U. S. revenue cutters has practically wiped out his business. Speaking in New York, Tsuneo Matsudaira, Japanese Ambassador to America, denied that Japan had any secret treaties with Russia and scouted as an impossibility war between the United States and Japan. Henry and Edsel Ford, who are already using airplanes commercially, are believed ready to engage in the building of huge dirigibles, following a long inspection of the "Los Angeles" and the "Shenandoah" in the naval air station at Lakehurst, N. J., by Edsel Ford and William Benson Mayo, chief engineer of the Ford Motor Co. of Detroit.

Henry and Edsel Ford, who are already using airplanes commercially, are believed ready to engage in the building of huge dirigibles, following a long inspection of the "Los Angeles" and the "Shenandoah" in the naval air station at Lakehurst, N. J., by Edsel Ford and William Benson Mayo, chief engineer of the Ford Motor Co. of Detroit.

Two Down  
A New Yorker by the name of Cohen recently visited Scotland. There he met a native by the name of MacPherson. Their conversation turned to golf, and they considered the possibility of playing a match.

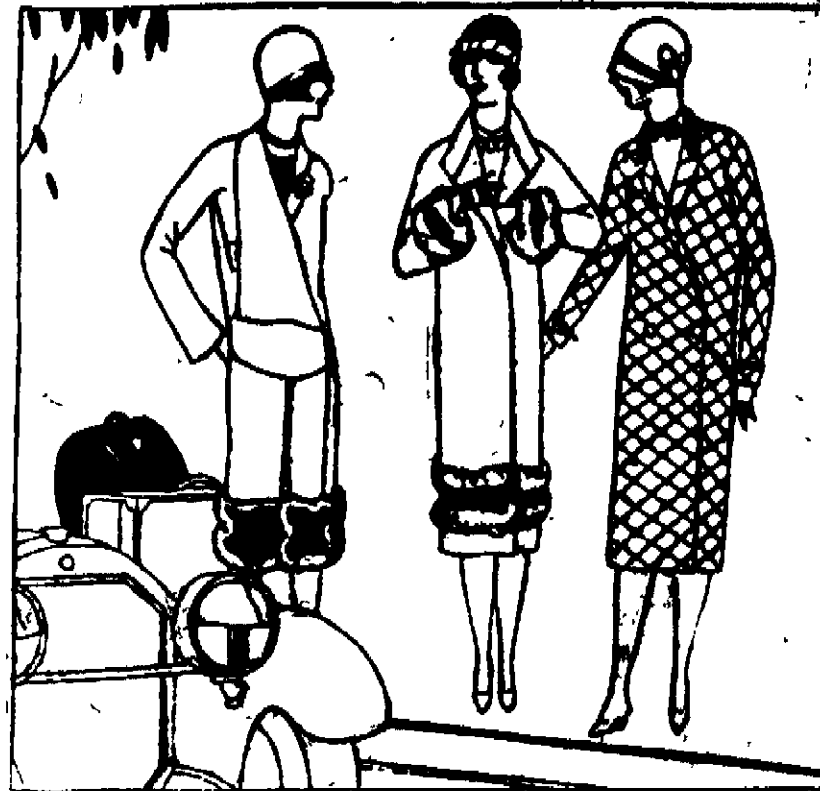

"I'm a dub at golf," protested the New Yorker. "I don't play better than a 115 or 120."

"I'm worse," said MacPherson. "I don't get around under 120 or 125." They decided to play for \$1 a hole. On his return to Seventh avenue Mr. Cohen related his experience in Scotland. He wound up by saying:

"That lying Scotchman went around in 78 and won \$2 from me."—New York Evening World.

**DR. CADY TRAVEL TALKS AT THE HIGH SCHOOL**

Dr. Putnam Cady will give three travel talks, illustrated with beautiful slides of pictures taken in his travels, at the High School Auditorium under the auspices of the Federated Council of Parent-Teacher Associations. The first one which will be given next Monday, will be on "Six hundred miles up the Nile, viewing the wonders of Egypt." The subject of the second, to be given on May 4, will be "Exploring Greek lands, sailing along the coast of Greece and Sicily." The third, to be given on May 11, will be on "Iceland and the Midnight Sun, touching Northern Fjords of Norway and sailing 300 miles into the Arctic ocean." Pupils of the Sixth, Seventh and Eighth grades and of the High School will be admitted for a small sum and parents, teachers and other adults are invited to attend. Dr. Cady is donating his services, absolutely free and the proceeds are to be applied towards buying moving picture equipment for the use of the High School and Sixth, Seventh and Eighth grades.

Game called at 3:30.  
Colonials vs. Royal Giants of Brooklyn  
Sunday, April 26.  
At Kingston Fair Grounds.

# SUCH POPULARITY MUST BE DESERVED!

The big sales at the Exchange and our continued success are two outstanding proofs of the old adage—the surest way to win.

POPULARITY IS TO DESERVE IT.

## Reasons Why Exchange Used Cars Are Popular:

- 1st. Each car is guaranteed to be as represented.
- 2nd. Each battery is guaranteed for six months.
- 3rd. Many of the cars are repainted.
- 4th. The cars are well displayed giving plenty of room to walk around and examine them.
- 5th. Exchange Cars can be bought on very easy terms.
